> Re: SUNPOWER CORP Form 10-K for the

Year Ended December 29, 2019

Form 8-K furnished

on May 7, 2020

File No. 001-34166

Dear Mr. Sial:

 $\label{eq:weak-solution} \mbox{We have reviewed your filing and have the following comments. In some of our }$

comments, we may ask you to provide us with information so we may better understand your $% \left(1\right) =\left(1\right) +\left(1\right) +\left$

disclosure.

 $\hbox{ Please respond to these comments within ten business days by providing the requested } \\$

information or advise us as soon as possible when you will respond. If you do not believe our

comments apply to your facts and circumstances, please tell us why in your response.

After reviewing your response to these comments, we may have additional comments.

Form 10-K for the Year Ended December 29, 2019

Notes to the Financial Statements Note 1. Organization and Summary of Significant Accounting Policies Summary of Significant Accounting Policies Revenue Recognition, page 105

that you offer financing programs that are designed to offer
customers a variety of
options to obtain high efficiency solar products and systems,
including loans
arranged through your third-party lending partners. Please revise your
revenue recognition
policy in future filings to disclose the material payment terms of your
contracts, to address
whether your contracts have a significant financing component and,
if so, to describe your
accounting for the significant financing component. Refer to ASC
606-10-50-12 and ASC

606-10-32-15 through 32-20.

FirstName LastName

Note 4. Business Divestiture and Sale of Assets, page 116

2. We note from your disclosure on page 118 that in connection with the sale and leaseback

of the Hillsboro facility, you recognized a net gain of \$25.2 million which is included

within "cost of revenue: solar power systems, components, other." In light of the fact that $% \left(1\right) =\left(1\right) +\left(1\right)$

this is material to your gross profit for 2019, please explain to us why you believe it was

appropriate to recognize this gain as a reduction to cost of revenues.

Product Warranties, page 130

Note 9. Commitments and Contingencies

3. We note from your warranty accrual activity disclosed at the top of page 133, that your

settlements and adjustments during 2019 significantly exceeded prior years, as well as the $\,$

amount you accrued for warranties during the period. Please explain to us the nature of

the significant increase in the amount of warranty settlements and adjustments recognized $% \left(1\right) =\left(1\right) +\left(1\right) +$

in 2019 and support your conclusion that your product warranty liability is adequate as of

December 29, 2019.

Selected Unaudited Quarterly Financial Data, page 160

4. We note that your disclosure of selected unaudited quarterly amounts reflects material $\ensuremath{\mathsf{A}}$

fluctuations between quarters during 2019. In future filings, please revise to disclose the

nature of any significant or unusual amounts that affected your quarterly earnings such as

the gain on sale of commercial sales-leaseback properties, the gain on the mark to market $% \left(1\right) =\left(1\right) +\left(1\right) +$

investment, and the impairment of residential lease assets. See guidance in Item 302(a)(3)

of Regulation S-K.

Form 8-K filed on May 7, 2020

Exhibit 99.1 Earnings Release, page 1

5. We note that you present a non-GAAP revenue measure that reflects certain IFRS-based $\,$

adjustments and an adjustment for construction revenue on solar services contracts that $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right$

recognizes the related revenue upfront based on the expected cash proceeds to align with $% \left(1\right) =\left(1\right) +\left(1\right) +\left$

the legacy lease accounting guidance, and not ratably over the term of the contract as

required by ASC 842. Your measures appear to substitute individually tailored revenue $\,$

recognition and measurement methods for those of GAAP, which is not consistent $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right)$

with Rule 100(b) of Regulation G and Question 100.04 of the Compliance and Disclosure $\,$

Interpretations on Non-GAAP Financial Measures. Please remove this ${\sf non\text{-}GAAP}$

measure from your future presentations, or advise us. Our comment also applies to your $\,$

 $\,$ non-GAAP gross profit, non-GAAP net income (loss) attributable to stockholders, and

 $\mbox{\sc Adjusted}$ EBITDA measures, which all reflect similar adjustments to GAAP revenue.

Manavendra S. Sial

SUNPOWER CORP

Page 3

stockholders, and Adjusted EBITDA financial measures, all include an adjustment for $\cos t$

of above-market polysilicon that management believes is appropriate to exclude as the $\,$

amounts ares not reflective of ongoing operating results. In light of the fact that these are $% \left(1\right) =\left(1\right) +\left(1$

inventory related items that you have recorded in each of the last several years, please

 $\,$ explain to us why they would not be considered "normal, recurring, cash operating

expenses" and tell us how you considered the guidance in Question 100.01 of the Compliance and Disclosure Interpretations on Non-GAAP Financial

Measures.

Alternatively, revise your future filings to remove this adjustment

Alternatively, revise your future filings to remove this adjustment from your non-GAAP $\,$

financial measures.

We remind you that the company and its management are responsible for the accuracy

and adequacy of their disclosures, notwithstanding any review, comments, action or absence of

action by the staff.

(202) 551-3671 if you have questions regarding comments on the financial statements and related matters.
