### Safe Harbor Statement

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including, but not limited to, statements regarding: (a) our expectations and plans for short- and long-term strategy, including market, product and technology focus, business model, projected growth and profitability, and areas of focus; (b) our expectations regarding market share, volume and revenue visibility, product adoption trends, margins and margin expansion, demand and pricing trends, opportunities in storage and services, cost reduction, and financial performance in each of our business lines; (c) our upstream and technology outlook, including expected ramp and production timelines and capacity for our Next Generation Technology and Performance Series, expected cost reduction and fab utilization, and future performance; (d) the impact of our corporate restructuring and related initiatives, including our realignment into upstream and downstream business units, on our financial performance, results of operations, and working capital and liquidity needs; (e) our expectations and plans regarding geographic, market, and product focus; (f) our strategic goals and plans, and our ability to achieve them; (g) our first quarter fiscal 2019 guidance, including GAAP revenue, gross margin, and net loss, as well as non-GAAP revenue, gross margin, Adjusted EBITDA, and MW deployed; and (i) full year fiscal 2019 guidance, including GAAP and non-GAAP revenue, GAAP and non-GAAP gross margin, operational expenditures, Adjusted EBITDA, capital expenditures, and gigawatts deployed, and assumptions underlying such guidance, as well as expected year-over-year and expected improvement. These forward-looking statements are based on our current assumptions, expectations and beliefs and involve substantial risks and uncertainties that may cause results, performance or achievement to materially differ from those expressed or implied by these forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to: (1) competition in the solar and general energy industry and downward pressure on selling prices and wholesale energy pricing; (2) our liquidity, substantial indebtedness, and ability to obtain additional financing for our projects and customers; (3) changes in public policy, including the imposition and applicability of tariffs; (4) regulatory changes and the availability of economic incentives promoting use of solar energy; (5) challenges inherent in constructing certain of our large projects, including regulatory hurdles and other difficulties that may arise; (6) the success of our ongoing research and development efforts and our ability to commercialize new products and services, including products and services developed through strategic partnerships; (7) fluctuations in our operating results; (8) appropriately sizing our manufacturing capacity and containing manufacturing and logistics difficulties that could arise; (9) challenges managing our acquisitions, joint ventures and partnerships, including our ability to successfully manage acquired assets and supplier relationships; (10) challenges in executing transactions key to our strategic plans; and (11) our ability to successfully implement actions to our restructuring and related initiatives, including plans to streamline our business and realign our business segments. A detailed discussion of these factors and other risks that affect our business is included in filings we make with the Securities and Exchange Commission (SEC) from time to time, including our most recent reports on Form 10-K and Form 10-Q, particularly under the heading "Risk Factors." Copies of these filings are available online from the SEC or on the SEC Filings section of our Investor Relations website at investors.sunpower.com. All forward-looking statements in this presentation are based on information currently available to us, and we assume no obligation to update these forward-looking statements in light of new information or future events.
