FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended April 1, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-34166

SunPower Corporation

(Exact Name of Registrant as Specified in Its Charter)

Delaware

(State or Other Jurisdiction of Incorporation or Organization)

94-3008969

(I.R.S. Employer Identification No.)

77 Rio Robles, San Jose, California 95134

(Address of Principal Executive Offices and Zip Code)

(408) 240-5500

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Sections 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The total number of outstanding shares of the registrant's common stock as of May 4, 2012 was 118,341,990.

The accompanying notes are an integral part of these condensed consolidated financial statements.

Note 1. THE COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

SunPower Corporation (together with its subsidiaries, the "Company" or "SunPower") is a vertically integrated solar products and services company that designs, manufactures and delivers high-performance solar electric systems worldwide for residential, commercial, and utility-scale power plant customers.

In December 2011, the Company announced a reorganization to align its business and cost structure with a regional focus in order to support the needs of its customers and improve the speed of decision-making processes. As a result, in the first quarter of fiscal 2012, the Company changed its segment reporting from its Utility and Power Plants ("UPP") Segment and Residential and Commercial ("R&C") Segment to three regional segments: (i) the Americas Segment, (ii) the EMEA Segment, and (iii) the APAC Segment. The Americas Segment includes both North and South America. The EMEA Segment includes European countries, as well as the Middle East and Africa. The APAC segment includes all Asia-Pacific countries. The Company's President and Chief Executive Officer, as the chief operating decision maker ("CODM"), has organized the Company, manages resource allocations and measures performance of the Company's activities among these three regional segments.

Historically, the UPP Segment referred to the Company's large-scale solar products and systems business, which included power plant project development and project sales, turn-key engineering, procurement and construction ("EPC") services for power plant construction, and power plant operations and maintenance ("O&M") services. The UPP Segment also sold components, including large volume sales of solar panels and mounting systems, to third parties, sometimes on a multi-year, firm commitment basis. The Company's former R&C Segment focused on solar equipment sales into the residential and small commercial market through its third-party global dealer network, as well as direct sales and EPC and O&M services in the United States and Europe for rooftop and ground-mounted solar power systems for the new homes, commercial, and public sectors.

On June 21, 2011, the Company became a majority owned subsidiary of Total Gas & Power USA, SAS, a French *société par actions simplifiée* ("Total"), a subsidiary of Total S.A., a French *société anonyme* ("Total S.A."), through a tender offer and Total's purchase of 60% of the outstanding former class A common stock and former class B common stock of the Company as of June 13, 2011. On January 31, 2012, Total purchased an additional 18.6 million shares of the Company's common stock in a private placement, thereby increasing Total's ownership to approximately 66% of the Company's outstanding common stock as of that date (see Note 2).

Basis of Presentation and Preparation

Principles of Consolidation

The Condensed Consolidated Financial Statements are prepared in accordance with accounting principles generally accepted in the United States of America ("United States" or "U.S.") and include the accounts of the Company, all of its subsidiaries and special purpose entities, as appropriate under consolidation accounting guidelines. Intercompany transactions and balances have been eliminated in consolidation. The assets of the special purpose entities that the Company sets up related to project financing for customers are not designed to be available to service the general liabilities and obligations of the Company in certain circumstances.

Reclassifications

Certain prior period balances have been reclassified to conform to the current period presentation in the Company's Condensed Consolidated Financial Statements and the accompanying notes. Such reclassifications had no effect on previously reported results of operations or accumulated deficit.

Fiscal Years

The Company reports on a fiscal-year basis and ends its quarters on the Sunday closest to the end of the applicable calendar quarter, except in a 53-week fiscal year, in which case the additional week falls into the fourth quarter of that fiscal year. Both fiscal 2012 and 2011 consist of 52 weeks. The first quarter of fiscal 2012 ended on April 1, 2012, while the first quarter in fiscal 2011 ended on April 3, 2011.

Management Estimates

The preparation of the condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Significant estimates in these condensed consolidated financial statements include percentage-of-completion for construction projects, allowances for doubtful accounts receivable and sales returns, inventory and project assets write-downs, stock-based compensation, estimates for future cash flows and economic useful lives of property, plant and equipment, goodwill, valuations for business combinations, other intangible assets and other long-term assets, asset impairments, fair value of financial instruments, certain accrued liabilities including accrued warranty, restructuring and termination of supply contracts reserves, valuation of debt without the conversion feature, valuation of share lending arrangements, income taxes, and tax valuation allowances. Actual results could materially differ from those estimates.

Summary of Significant Accounting Policies

There have been no significant changes in the Company's significant accounting policies for the three months ended April 1, 2012, as compared to the significant accounting policies described in the fiscal 2011 Form 10-K. Further, there has been no issued accounting guidance not yet adopted by the Company that it believes is material, or is potentially material to its condensed consolidated financial statements.

Note 2. TRANSACTIONS WITH TOTAL AND TOTAL S.A.

On April 28, 2011, the Company and Total entered into a Tender Offer Agreement (the "Tender Offer Agreement"), pursuant to which, on May 3, 2011, Total commenced a cash tender offer to acquire up to 60% of the Company's outstanding shares of former class A common stock and up to 60% of the Company's outstanding shares of former class B common stock (the "Tender Offer") at a price of \$23.25 per share for each class. The offer expired on June 14, 2011 and Total accepted for payment on June 21, 2011 a total of 34,756,682 shares of the Company's former class A common stock and 25,220,000 shares of the Company's former class B common stock, representing 60% of each class of its outstanding common stock as of June 13, 2011, for a total cost of approximately \$1.4 billion.

On December 23, 2011, the Company entered into a Stock Purchase Agreement with Total, under which it agreed to acquire 100% of the equity interest of Tenesol, from Total for \$165.4 million in cash. The Tenesol acquisition was consummated on January 31, 2012 (see Note 3). Contemporaneously with the execution of the Tenesol Stock Purchase Agreement, the Company entered into a Private Placement Agreement with Total, under which Total agreed to purchase, and the Company agreed to issue and sell 18.6 million shares of the Company's common stock for a purchase price of \$8.80 per share, thereby increasing Total's ownership to approximately 66% of the Company's outstanding common stock as of that date. The sale was completed contemporaneously with the closing of the Tenesol acquisition.

Credit Support Agreement

In connection with the Tender Offer, the Company and Total S.A. entered into a Credit Support Agreement (the "Credit Support Agreement") under which Total S.A. agreed to enter into one or more guarantee agreements (each a "Guaranty") with banks providing letter of credit facilities to the Company in support of certain Company businesses and other permitted purposes. Total S.A. will guarantee the payment to the applicable issuing bank of the Company's obligation to reimburse a draw on a letter of credit and pay interest thereon in accordance with the letter of credit facility between such bank and the Company. The Credit Support Agreement became effective on June 28, 2011 (the "CSA Effective Date"). Under the Credit Support Agreement, at any time from the CSA Effective Date until the fifth anniversary of the CSA Effective Date, the Company may request that Total S.A. provide a Guaranty in support of the Company's payment obligations with respect to a letter of credit facility. Total S.A. is required to issue and enter into the Guaranty requested by the Company, subject to certain terms and conditions that may be waived by Total S.A., and subject to certain other conditions.

In consideration for the commitments of Total S.A., under the Credit Support Agreement, the Company is required to pay Total S.A. a guarantee fee for each letter of credit that is the subject of a Guaranty and was outstanding for all or part of the preceding calendar quarter. The Company is also required to reimburse Total S.A. for payments made under any Guaranty and certain expenses of Total S.A., plus interest on both. In the first quarter of fiscal 2012, the Company incurred guaranty fees of \$1.8 million to Total S.A.

The Company has agreed to undertake certain actions, including, but not limited to, ensuring that the payment

[Table of Contents](#)

obligations of the Company to Total S.A. rank at least equal in right of payment with all of the Company's other present and future indebtedness, other than certain permitted secured indebtedness. The Company has also agreed to refrain from taking certain actions, including refraining from making any equity distributions so long as it has any outstanding repayment obligation to Total S.A. resulting from a draw on a guaranteed letter of credit.

The Credit Support Agreement will terminate following the fifth anniversary of the CSA Effective Date, after the later of the payment in full of all obligations thereunder and the termination or expiration of each Guaranty provided thereunder.

Affiliation Agreement

In connection with the Tender Offer, the Company and Total entered into an Affiliation Agreement that governs the relationship between Total and the Company following the close of the Tender Offer (the "Affiliation Agreement"). Until the expiration of a standstill period (the "Standstill Period"), Total, Total S.A., any of their respective affiliates and certain other related parties (the "Total Group") may not effect, seek, or enter into discussions with any third-party regarding any transaction that would result in the Total Group beneficially owning shares of the Company in excess of certain thresholds, or request the Company or the Company's independent directors, officers or employees, to amend or waive any of the standstill restrictions applicable to the Total Group.

The Affiliation Agreement imposes certain limitations on the Total Group's ability to seek to effect a tender offer or merger to acquire 100% of the outstanding voting power of the Company and imposes certain limitations on the Total Group's ability to transfer 40% or more of outstanding shares or voting power of the Company to a single person or group that is not a direct or indirect subsidiary of Total S.A. During the Standstill Period, no member of the Total Group may, among other things, solicit proxies or become a participant in an election contest relating to the election of directors to the Company's Board of Directors.

The Affiliation Agreement provides Total with the right to maintain its percentage ownership in connection with any new securities issued by the Company, and Total may also purchase shares on the open market or in private transactions with disinterested stockholders, subject in each case to certain restrictions.

In accordance with the terms of the Affiliation Agreement, on July 1, 2011, the Company's Board of Directors expanded the size of the Board of Directors to eleven members and elected six nominees from Total as directors, following which the Board of Directors was composed of the Chief Executive Officer of the Company (who also serves as the chairman of the Company's Board of Directors), four existing non-Total designated members of the Company's Board of Directors, and six directors designated by Total. Directors designated by Total also serve on certain committees of the Company's Board of Directors. On the first anniversary of the consummation of the Tender Offer, the size of the Company's Board of Directors will be reduced to nine members and one non-Total designated director and one director designated by Total will resign from the Company's Board of Directors. If the Total Group's ownership percentage of Company common stock declines, the number of members of the Company's Board of Directors that Total is entitled to nominate to the Company's Board of Directors will be reduced as set forth in the Affiliation Agreement.

The Affiliation Agreement also imposes certain restrictions with respect to the Company's and the Company's Board of Directors' ability to take certain actions, including specifying certain actions that require approval by the directors other than the directors appointed by Total and other actions that require stockholder approval by Total.

Affiliation Agreement Guaranty

Total S.A. has entered into a guaranty (the "Affiliation Agreement Guaranty") pursuant to which Total S.A. unconditionally guarantees the full and prompt payment of Total S.A.'s, Total's and each of Total S.A.'s direct and indirect subsidiaries' payment obligations under the Affiliation Agreement and the full and prompt performance of Total S.A.'s, Total's and each of Total S.A.'s direct and indirect subsidiaries' representations, warranties, covenants, duties, and agreements contained in the Affiliation Agreement.

Research & Collaboration Agreement

In connection with the Tender Offer, Total and the Company have entered into a Research & Collaboration Agreement (the "R&D Agreement") that establishes a framework under which the parties engage in long-term research and development collaboration ("R&D Collaboration"). The R&D Collaboration encompasses a number of different projects ("R&D Projects"), with a focus on advancing technology in the area of photovoltaics. The primary purpose of the R&D Collaboration is to: (i) maintain and expand the Company's technology position in the crystalline silicon domain; (ii) ensure the Company's industrial

competitiveness; and (iii) guarantee a sustainable position for both the Company and Total to be best-in-class industry players.

The R&D Agreement enables a joint committee (the "R&D Strategic Committee") to identify, plan and manage the R&D Collaboration. Due to the impracticability of anticipating and establishing all of the legal and business terms that are and will be applicable to the R&D Collaboration or to each R&D Project, the R&D Agreement sets forth broad principles applicable to the parties' potential R&D Collaboration, and the R&D Collaboration Committee establishes the particular terms governing each particular R&D Project consistent with the terms set forth in the R&D Agreement.

Registration Rights Agreement

In connection with the Tender Offer, Total and the Company entered into a customary registration rights agreement (the "Registration Rights Agreement") related to Total's ownership of Company shares. The Registration Rights Agreement provides Total with shelf registration rights, subject to certain customary exceptions, and up to two demand registration rights in any 12-month period, also subject to certain customary exceptions. Total also has certain rights to participate in any registrations of securities initiated by the Company. The Company will generally pay all costs and expenses incurred by the Company and Total in connection with any shelf or demand registration (other than selling expenses incurred by Total). The Company and Total have also agreed to certain indemnification rights. The Registration Rights Agreement terminates on the first date on which: (i) the shares held by Total constitute less than 5% of the then-outstanding common stock; (ii) all securities held by Total may be immediately resold pursuant to Rule 144 promulgated under the Securities and Exchange Act of 1934 (the "Exchange Act") during any 90-day period without any volume limitation or other restriction; or (iii) the Company ceases to be subject to the reporting requirements of the Exchange Act.

Stockholder Rights Plan

On April 28, 2011, prior to the execution of the Tender Offer Agreement, the Company entered into an amendment (the "Rights Agreement Amendment") to the Rights Agreement, dated August 12, 2008, by and between the Company and Computershare Trust Company, N.A., as Rights Agent (the "Rights Agreement"), in order to, among other things, render the rights therein inapplicable to each of: (i) the approval, execution or delivery of the Tender Offer Agreement; (ii) the commencement or consummation of the Tender Offer; (iii) the consummation of the other transactions contemplated by the Tender Offer Agreement and the related agreements; and (iv) the public or other announcement of any of the foregoing.

On June 14, 2011, the Company entered into a second amendment to the Rights Agreement (the "Second Rights Agreement Amendment"), in order to, among other things, exempt Total, Total S.A. and certain of their affiliates and certain members of a group of which they may become members from the definition of "Acquiring Person" such that the rights issuable pursuant to the Rights Agreement will not become issuable in connection with the completion of the Tender Offer.

By-laws Amendment

On June 14, 2011, the Board of Directors approved the amendment of the Company's By-laws (the "By-laws"). The changes are required under the Affiliation Agreement. The amendments: (i) allow any member of the Total Group to call a meeting of stockholders for the sole purpose of considering and voting on a proposal to effect a Terra Merger (as defined in the Affiliation Agreement) or a Transferee Merger (as defined in the Affiliation Agreement); (ii) provide that the number of directors of the Board shall be determined from time to time by resolution adopted by the affirmative vote of a majority of the entire Board at any regular or special meeting; (iii) require, prior to the termination of the Affiliation Agreement, a majority of independent directors' approval to amend the By-laws so long as Total, together with Total S.A.'s subsidiaries collectively own at least 30% of the voting securities of the Company as well as require, prior to the termination of the Affiliation Agreement, Total's written consent during the Terra Stockholder Approval Period (as defined in the Affiliation Agreement) to amend the By-laws; and (iv) make certain other conforming changes to the By-laws.

Liquidity Support Agreement with Total S.A.

The Company is party to an agreement with a customer to construct the California Valley Solar Ranch, a solar park. Part of the debt financing necessary for the customer to pay for the construction of this solar park is being provided by Federal Financing Bank in reliance on a guarantee of repayment provided by the Department of Energy (the "DOE") under a loan guarantee program. On February 28, 2012, the Company entered into a Liquidity Support Agreement with Total S.A. and the DOE, and a series of related agreements with Total S.A. and Total, under which Total S.A. has agreed to provide the Company, or cause to be provided, additional liquidity under certain circumstances to a maximum amount of \$600.0 million ("Liquidity Support Facility"). Total S.A. is required to provide liquidity support to the Company under the facility, and the Company is required to accept such liquidity support from Total S.A., if either the Company's actual or projected unrestricted cash, cash

equivalents, and unused borrowing capacity are reduced below \$100.0 million, or the Company fails to satisfy any financial covenant under its indebtedness. In either such event, subject to a \$600.0 million aggregate limit, Total S.A. is required to provide the Company with sufficient liquidity support to increase the amount of its unrestricted cash, cash equivalents and unused borrowing capacity to above \$100.0 million, and to restore compliance with its financial covenants. The Liquidity Support Facility is available until the completion of the solar park, expected to be operational in 2013 and completed before the end of fiscal 2014, and, under certain conditions, up to December 31, 2016, at which time all outstanding guarantees will expire and all outstanding debt under the facility will become due. The use of the Liquidity Support Facility is not limited to direct obligations related to the solar park, but the Company has agreed to conduct its operations, and use any proceeds from such facility in ways, that minimize the likelihood of Total S.A. being required to provide further support. The Liquidity Support Facility is available for general corporate purposes. In connection with the Liquidity Support Agreement, the Company also entered into a Compensation and Funding Agreement with Total S.A., and a Private Placement Agreement and a Revolving Credit and Convertible Loan Agreement with Total.

Compensation and Funding Agreement

In connection with the Liquidity Support Agreement, on February 28, 2012, the Company entered into a Compensation and Funding Agreement (the "Compensation and Funding Agreement") with Total S.A., pursuant to which, among other things, the Company and Total S.A. established the parameters for the terms of the Liquidity Support Facility and any liquidity injections that may be required to be provided by Total S.A. to the Company pursuant to the Liquidity Support Agreement. The Company has agreed in the Compensation and Funding Agreement to use commercially reasonable efforts to assist Total S.A. in the performance of its obligations under the Liquidity Support Agreement and to conduct, and to act in good faith in conducting, its affairs in a manner such that Total S.A.'s obligation under the Liquidity Support Agreement to provide Liquidity Injections will not be triggered or, if triggered, will be minimized. The Company has also agreed to use any cash provided under the facility in such a way as to minimize the need for further liquidity support. The Compensation and Funding Agreement required the Company to issue, in consideration for Total S.A.'s agreement to provide the Liquidity Support Facility, a warrant ("the Upfront Warrant") to Total that is exercisable to purchase an amount of the Company's common stock equal to \$75.0 million, divided by the volume-weighted average price for the Company's common stock for the 30 trading-day period ending on the trading day immediately preceding the date of the calculation. The Upfront Warrant will be exercisable at any time for seven years after its issuance, provided that, so long as at least \$25.0 million of the Company's convertible debt remains outstanding, such exercise will not cause "any person," including Total S.A., to, directly or indirectly, including through one or more wholly-owned subsidiaries, become the "beneficial owner" (as such terms are defined in Rule 13d-3 and Rule 13d-5 under the Securities and Exchange Act of 1934, as amended), of more than 74.99% of the voting power of the Company's common stock at such time, because "any person" becoming such "beneficial owner" would trigger the repurchase or conversion of the Company's existing convertible debt. On February 28, 2012, the Company issued to Total the Upfront Warrant to purchase 9,531,677 shares of the Company's common stock with an exercise price of \$7.8685, subject to adjustment for customary anti-dilution and other events.

Liquidity support may be provided by Total S.A. or through its affiliates in the form of revolving non-convertible debt, convertible debt, equity, guarantees of Company indebtedness or other forms of liquidity support agreed to by the Company, depending on the amount outstanding under the facility immediately prior to provision of the applicable support among other factors. The Company is required to compensate Total S.A. for any liquidity support actually provided, and the form and amount of such compensation depends on the form and amount of support provided, with the amount of compensation generally increasing with the amount of support provided over time. Such compensation is to be provided in a variety of forms including guarantee fees, warrants to purchase common stock, interest on amounts borrowed, and discounts on equity issued.

During the term of the Compensation and Funding Agreement, the Company will make certain cash payments to Total S.A. within 30 days after the end of each calendar quarter during for the term of the agreement as follow: (i) quarterly payment of a commitment fee in an amount equal to 0.25% of the unused portion of the \$600.0 million Liquidity Support Facility as of the end of such quarter; and (ii) quarterly payment of a guarantee fee in an amount equal to 2.75% per annum of the average amount of the Company's indebtedness that is guaranteed by Total S.A. pursuant to any guaranty issued in accordance with the terms of the Compensation and Funding Agreement during such quarter. Any payment obligations of the Company to Total S.A. under the Compensation and Funding Agreement that are not paid when due shall accrue interest until paid in full at a rate equal to 6-month U.S. LIBOR as in effect from time to time plus 5.00% per annum. In the first quarter of fiscal 2012, the Company incurred quarterly commitment fees of \$0.6 million to Total S.A.

The Liquidity Support Agreement, the Compensation and Funding Agreement, the Private Placement Agreement, and the Revolving Credit and Convertible Loan Agreement are further described in the fiscal 2011 Form 10-K.

Note 3. TRANSFER OF ENTITIES UNDER COMMON CONTROL

Tenesol

On January 31, 2012, the Company completed its acquisition of Tenesol, a global solar provider headquartered in La Tour de Salvagny, France, and formerly wholly-owned subsidiary of Total for \$165.4 million in cash in exchange for 100% of the equity of Tenesol from Total pursuant to a stock purchase agreement entered into on December 23, 2011. Tenesol is engaged in the business of devising, designing, manufacturing, installing, and managing solar power production and consumption systems for farms, industrial and service sector buildings, solar power plants and private homes.

As Tenesol and the Company were under the common control of Total as of the January 30, 2012 acquisition date, the acquisition is treated as a transfer of an entity under common control and represents a change in the reporting entity. As a result, the Company has retrospectively adjusted its historical financial statements to reflect the transfer beginning on October 10, 2011, the first date in which Total had common control of both the Company and Tenesol, and to include the results of operations in the Company's Condensed Consolidated Statement of Operations since October 10, 2011. The Company recorded the transfer of Tenesol's assets and liabilities at their historical carrying value in accordance with U.S. GAAP, and the net assets transferred were recorded as an equity contribution from Total to the Company as of October 10, 2011. The subsequent cash payment on January 31, 2012 as described above was treated as a cash distribution to Total. In addition, a transaction between Total and Tenesol on January 23, 2012 resulted in an additional equity contribution from Total to the Company in the fiscal quarter ending January 1, 2012, and an additional cash distribution to Total totaling \$12.9 million in the fiscal quarter ending April 1, 2012.

The Condensed Consolidated Balance Sheets and Condensed Consolidated Statements of Operations as of and for the twelve months ended January 1, 2012 as reported previously and as adjusted in this report are as follows:

	\$ 8,470	\$ 7,142

Note 6. INVESTMENTS

The Company's investments in money market funds, classified as available-for-sale, are carried at fair value. Debt securities that are classified as held-to-maturity are carried at amortized costs. Fair values are determined based on a hierarchy that prioritizes the inputs to valuation techniques by assigning the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). Level 2 measurements are inputs that are observable for assets or liabilities, either directly or indirectly, other than quoted prices included within Level 1.

Information about the Company's convertible debenture derivatives measured at fair value on a recurring basis is disclosed in Note 10. Information about the Company's foreign currency derivatives measured at fair value on a recurring basis is disclosed in Note 11. The Company did not have any nonfinancial assets or liabilities that were recognized or disclosed at fair value on a recurring basis in its consolidated financial statements.

Money Market Funds

All of the Company's money market fund instruments are classified as available-for-sale and within Level 1 of the fair value hierarchy because they are valued using quoted prices for identical instruments in active markets. As of April 1, 2012 and January 1, 2012, the Company's investments in money market funds totaled \$166.0 million and \$187.5 million, respectively, and are classified as "Cash and cash equivalents" on the Company's Condensed Consolidated Balance Sheets. There were no transfers between Level 1, Level 2, and Level 3 measurements during the three month ended April 1, 2012 and April 3, 2011.

Debt Securities

Investments in debt securities classified as held-to-maturity as of April 1, 2012 and January 1, 2012, consist of Philippine government bonds purchased in the third quarter of fiscal 2011 which are maintained as collateral for present and future business transactions within the country. These bonds have maturity dates of up to 5 years with a carrying value of \$9.1 million as of both April 1, 2012 and January 1, 2012, which are classified as "Restricted long-term marketable securities" on the Company's Condensed Consolidated Balance Sheets. The Company records such held-to-maturity investments at

amortized cost based on its ability and intent to hold the securities until maturity. The Company monitors for changes in circumstances and events which would impact its ability and intent to hold such securities until the recorded amortized cost is recovered. The Company incurred no other-than-temporary impairment loss in the three months ended April 1, 2012.

Minority Investments in Joint Ventures and Other Non-Public Companies

The Company holds minority investments in joint ventures and other non-public companies comprised of convertible promissory notes, common and preferred stock. The Company monitors these minority investments for impairment, which are included in "Other long-term assets" in its Condensed Consolidated Balance Sheets, and records reductions in the carrying values when necessary. Circumstances that indicate an other-than-temporary decline include the valuation ascribed to the issuing company in subsequent financing rounds, decreases in quoted market prices, and declines in operations of the issuer. As of April 1, 2012 and January 1, 2012, the Company had \$112.5 million and \$129.9 million, respectively, in investments in joint ventures accounted for under the equity method and \$4.9 million in both periods in investments accounted for under the cost method (see Note 9).

Note 7. RESTRUCTURING

December 2011 Restructuring Plan

To accelerate operating cost reduction and improve overall operating efficiency, in December 2011, the Company implemented a company-wide restructuring program (the "December 2011 Plan"). The December 2011 Plan eliminated approximately 2% of SunPower's global workforce. The Company expects to record restructuring charges up to \$17.0 million, related to all segments, in the twelve months following the approval and implementation of the December 2011 Plan. The Company expects greater than 80% of these charges to be cash.

The cumulative amount of restructuring charges incurred in connection with the December 2011 Plan to date totals \$10.4 million and consists of \$8.3 million of employee severance and benefits and accelerated vesting of previously granted restricted stock units, \$1.8 million of lease and related termination costs, and \$0.3 million of legal and other related charges. Restructuring charges recognized in connection with the December 2011 Plan during the three months ended April 1, 2012 in the Company's Condensed Consolidated Statements of Operations consisted of \$1.0 million of employee severance and benefits, \$1.8 million of lease and related termination costs, and \$0.1 million of legal and other related charges. As of April 1, 2012, \$2.0 million associated with the December 2011 Plan was recorded in "Accrued liabilities" on the Company's Condensed Consolidated Balance Sheet.

June 2011 Restructuring Plan

In response to reductions in European government incentives, which had a significant impact on the global solar market, on June 13, 2011, the Company's Board of Directors approved a restructuring plan (the "June 2011 Plan") to realign the Company's resources. The June 2011 Plan eliminated approximately 2% of the Company's global workforce, in addition to the consolidation or closure of certain facilities in Europe. Restructuring activities associated with the June 2011 Plan were substantially completed as of April 1, 2012.

The cumulative amount of restructuring charges incurred in connection with the June 2011 Plan to date totals \$14.0 million related to the EMEA Segment and consists of \$11.1 million of employee severance, benefits and accelerated vesting of promissory notes, \$0.7 million of lease and related termination costs, and \$2.3 million of legal and other related charges. Restructuring charges recognized in connection with the June 2011 Plan during the three months ended April 1, 2012 totaled \$0.1 million in the Company's Condensed Consolidated Statements of Operations which primarily consisted of legal and other related charges. As of April 1, 2012, \$1.3 million associated with the June 2011 Plan was recorded in "Accrued liabilities" on the Company's Condensed Consolidated Balance Sheet.

The following table summarizes the restructuring reserve activity during the three months ended April 1, 2012:

(In thousands)	Three Months Ended			
	January 1, 2012	Charges (Benefits)	Payments	April 1, 2012
December 2011 Plan:				
Severance and benefits	\$ 3,344	\$ 1,044	\$ (4,243)	\$ 145
Lease and related termination costs	—	1,760	—	1,760
Other costs (1)	24	120	(52)	92
June 2011 Plan:				
Severance and benefits (2)	2,204	(100)	(1,759)	345
Lease and related termination costs	688	10	—	698
Other costs (1)	64	212	(26)	250
Total restructuring liabilities	\$ 6,324	\$ 3,046	\$ (6,080)	\$ 3,290

(1) Other costs primarily represent associated legal services.

(2) The June 2011 Plan reserve balance as of January 1, 2012 excludes \$1.4 million of charges associated with the accelerated vesting of promissory notes, in accordance with the terms of each agreement, previously issued as consideration for an acquisition completed in the first quarter of fiscal 2010. The \$1.4 million charge is separately recorded in "Accrued liabilities" on the Company's Condensed Consolidated Balance Sheet as of January 1, 2012, and was fully paid during the three months ended April 1, 2012.

Note 8. COMMITMENTS AND CONTINGENCIES

Lease Commitments

The Company leases its corporate headquarters in San Jose, California and its Richmond, California facility under non-cancellable operating leases from unaffiliated third parties. The Company also has various lease arrangements, including its European headquarters located in Geneva, Switzerland as well as sales and support offices throughout the United States and Europe. In August 2011, the Company entered into a non-cancellable operating lease agreement for its solar module facility in Mexicali, Mexico from an unaffiliated third party.

In fiscal 2009, the Company signed a commercial project financing agreement with Wells Fargo to fund up to \$100 million of commercial-scale solar power system projects through December 31, 2010. On July 16, 2011, the Company and Wells Fargo amended the agreement to extend through June 30, 2012. As of April 1, 2012, the Company leases seven solar power systems from Wells Fargo over minimum lease terms of up to 20 years that it had previously sold to Wells Fargo, of which three of these sales occurred during fiscal 2011. Separately, the Company entered into power purchase agreements ("PPAs") with end customers, who host the leased solar power systems and buy the electricity directly from the Company under PPAs with a duration of up to 20 years. At the end of each lease term, the Company has the option to purchase the systems at fair value or remove the systems. The deferred profit on the sale of the systems to Wells Fargo is recognized over the minimum term of the lease. In the fourth quarter of fiscal 2011, the Company also entered into similar lease arrangements with an unaffiliated third party whereby it leases solar power systems over minimum lease terms of up to 15 years that it previously sold to such third party.

The Company additionally leases certain buildings, machinery and equipment under capital leases for terms up to 12 years. Future minimum obligations under all non-cancellable leases as of April 1, 2012 are as follows:

(In thousands)	Capital Lease Amount	Operating Lease Amount
Year		
2012 (remaining nine months)	\$ 1,775	\$ 13,367
2013	2,104	14,571
2014	1,511	12,782
2015	1,232	11,766
2016	996	11,291
Thereafter	2,756	56,837
	\$ 10,374	\$ 120,614

Purchase Commitments

The Company purchases raw materials for inventory and manufacturing equipment from a variety of vendors. During the normal course of business, in order to manage manufacturing lead times and help assure adequate supply, the Company enters into agreements with contract manufacturers and suppliers that either allow them to procure goods and services based on specifications defined by the Company, or that establish parameters defining the Company's requirements. In certain instances, these agreements allow the Company the option to cancel, reschedule or adjust the Company's requirements based on its business needs prior to firm orders being placed. Consequently, only a portion of the Company's disclosed purchase commitments arising from these agreements are firm, non-cancellable, and unconditional commitments.

The Company also has agreements with several suppliers, including some of its non-consolidated joint ventures, for the procurement of polysilicon, ingots, wafers, solar cells, solar panels, and Solar Renewable Energy Credits ("SREC") which specify future quantities and pricing of products to be supplied by the vendors for periods up to 10 years and provide for certain consequences, such as forfeiture of advanced deposits and liquidated damages relating to previous purchases, in the event that the Company terminates the arrangements. Where pricing is specified for future periods, in some contracts, the Company may reduce its purchase commitment under the contract if the Company obtains a bona fide third party offer at a price that is a certain percentage lower than the applicable purchase price in the existing contract. If market prices decrease, the Company intends to use such provisions to either move its purchasing to another supplier or to force the initial supplier to reduce its price to remain competitive with market pricing.

As of April 1, 2012, total obligations related to non-cancellable purchase orders totaled \$0.3 billion and long-term supply agreements with suppliers totaled \$2.5 billion. Of the total future purchase commitments of \$2.8 billion as of April 1, 2012, \$47.8 million are for commitments to its non-consolidated joint ventures. Future purchase obligations under non-cancellable purchase orders and long-term supply agreements as of April 1, 2012 are as follows:

(In thousands)	Amount
Year	
2012 (remaining nine months)	\$ 717,537
2013	257,203
2014	384,531
2015	380,834
2016	333,007
Thereafter	711,079
	\$ 2,784,191

The Company has tolling agreements with suppliers in which the Company provides polysilicon required for silicon ingot manufacturing and procures the manufactured silicon ingots from the supplier. Annual future purchase commitments in the table above are calculated using the gross future purchase obligations of the Company and are not reduced by tolling agreements and non-cancellable SREC sales arrangements. Total future purchase commitments as of April 1, 2012 would be reduced by \$43.8 million had the Company's obligations under such agreements been disclosed using net cash outflows.

The Company expects that all obligations related to non-cancellable purchase orders for manufacturing equipment will be recovered through future cash flows of the solar cell manufacturing lines and solar panel assembly lines when such long-lived assets are placed in service. Factors considered important that could result in an impairment review include significant

underperformance relative to expected historical or projected future operating results, significant changes in the manner of use of acquired assets, and significant negative industry or economic trends. Obligations related to non-cancellable purchase orders for inventories match current and forecasted sales orders that will consume these ordered materials and actual consumption of these ordered materials are compared to expected demand regularly. The Company anticipates total obligations related to long-term supply agreements for inventories will be recovered because quantities are less than management's expected demand for its solar power products. However, the terms of the long-term supply agreements are reviewed by management and the Company establishes accruals for estimated losses on adverse purchase commitments as necessary, such as lower of cost or market value adjustments, forfeiture of advanced deposits and liquidated damages. Such accruals will be recorded when the Company determines the cost of purchasing the components is higher than the estimated current market value or when it believes it is probable such components will not be utilized in future operations. During the three months ended April 1, 2012, the Company recorded charges amounting to \$9.0 million related to the write-down of third-party inventory after reductions in European government incentives drove down demand and average selling price in certain areas of Europe.

Advances to Suppliers

As noted above, the Company has entered into agreements with various polysilicon, ingot, wafer, solar cell, and solar panel vendors that specify future quantities and pricing of products to be supplied by the vendors for periods up to 10 years. Certain agreements also provide for penalties or forfeiture of advanced deposits in the event the Company terminates the arrangements. Under certain agreements, the Company is required to make prepayments to the vendors over the terms of the arrangements. During the three months ended April 1, 2012, the Company paid advances totaling \$10.0 million in accordance with the terms of existing long-term supply agreements. As of April 1, 2012 and January 1, 2012, advances to suppliers totaled \$343.2 million and \$327.5 million, respectively, the current portion of which is \$58.2 million and \$43.1 million, respectively. Two suppliers accounted for 72% and 23% of total advances to suppliers as of April 1, 2012, and 74% and 20% as of January 1, 2012.

The Company's future prepayment obligations related to these agreements as of April 1, 2012 are as follows:

(In thousands)	Amount
Year	
2012 (remaining nine months)	\$ 174,442
2013	7,295
	<u>\$ 181,737</u>

Product Warranties

The Company generally warrants or guarantees the performance of the solar panels that it manufactures at certain levels of power output for 25 years. In addition, the Company passes through to customers long-term warranties from OEMs of certain system components, such as inverters. Warranties of 25 years from solar panels suppliers are standard in the solar industry, while inverters typically carry warranty periods ranging from 5 to 10 years. In addition, the Company generally warrants its workmanship on installed systems for periods ranging up to 10 years. The Company maintains reserves to cover the expected costs that could result from these warranties. The Company's expected costs are generally in the form of product replacement or repair. Warranty reserves are based on the Company's best estimate of such costs and are recognized as a cost of revenue. The Company continuously monitors product returns for warranty failures and maintains a reserve for the related warranty expenses based on various factors including historical warranty claims, results of accelerated lab testing, field monitoring, vendor reliability estimates, and data on industry averages for similar products. Historically, warranty costs have been within management's expectations.

Provisions for warranty reserves charged to cost of revenue were \$9.4 million and \$7.7 million in the three months ended April 1, 2012 and April 3, 2011, respectively:

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Balance at the beginning of the period (1)	\$ 94,323	\$ 63,562
Accruals for warranties issued during the period	9,448	7,739
Settlements made during the period	(932)	(1,182)
Balance at the end of the period	<u>\$ 102,839</u>	<u>\$ 70,119</u>

[Table of Contents](#)

- (1) As adjusted to reflect the balances of Tenesol beginning October 10, 2011, as required under the accounting guidelines for a transfer of an entity under common control (see Note 3).

Contingent Obligations

Projects often require the Company to undertake customer obligations including: (i) system output performance guarantees; (ii) system maintenance; (iii) penalty payments or customer termination rights if the system the Company is constructing is not commissioned within specified timeframes or other milestones are not achieved; (iv) guarantees of certain minimum residual value of the system at specified future dates; and (v) system put-rights whereby the Company could be required to buy-back a customer's system at fair value on specified future dates if certain minimum performance thresholds are not met. To date, no such repurchase obligations have been required.

Future Financing Commitments

The Company is required to provide certain fundings under the joint venture agreement with AU Optronics Singapore Pte. Ltd. ("AUO") and another financing agreement with a third party, subject to certain conditions (see Note 9).

The Company's future financing obligations related to these agreements as of April 1, 2012 are as follows:

(In thousands)	Amount
Year	
2012 (remaining nine months)	\$ 47,770
2013	101,400
2014	96,770
	<u>\$ 245,940</u>

Liabilities Associated with Uncertain Tax Positions

Total liabilities associated with uncertain tax positions were \$29.8 million and \$29.3 million as of April 1, 2012 and January 1, 2012, respectively, and are included in "Other long-term liabilities" in the Company's Condensed Consolidated Balance Sheets as they are not expected to be paid within the next twelve months. Due to the complexity and uncertainty associated with its tax positions, the Company cannot make a reasonably reliable estimate of the period in which cash settlement will be made for its liabilities associated with uncertain tax positions in other long-term liabilities (see Note 12).

Indemnifications

The Company is a party to a variety of agreements under which it may be obligated to indemnify the other party with respect to certain matters. Typically, these obligations arise in connection with contracts and license agreements or the sale of assets, under which the Company customarily agrees to hold the other party harmless against losses arising from a breach of warranties, representations and covenants related to such matters as title to assets sold, negligent acts, damage to property, validity of certain intellectual property rights, non-infringement of third-party rights, and certain tax related matters. In each of these circumstances, payment by the Company is typically subject to the other party making a claim to the Company under the procedures specified in the particular contract. These procedures usually allow the Company to challenge the other party's claims or, in case of breach of intellectual property representations or covenants, to control the defense or settlement of any third party claims brought against the other party. Further, the Company's obligations under these agreements may be limited in terms of activity (typically to replace or correct the products or terminate the agreement with a refund to the other party), duration and/or amounts. In some instances, the Company may have recourse against third parties and/or insurance covering certain payments made by the Company.

Legal Matters

Three securities class action lawsuits were filed against the Company and certain of its current and former officers and directors in the United States District Court for the Northern District of California on behalf of a class consisting of those who acquired the Company's securities from April 17, 2008 through November 16, 2009. The cases were consolidated as *In re SunPower Securities Litigation*, Case No. CV-09-5473-RS (N.D. Cal.), and lead plaintiffs and lead counsel were appointed on March 5, 2010. Lead plaintiffs filed a consolidated complaint on May 28, 2010. The actions arise from the Audit Committee's investigation announcement on November 16, 2009 regarding certain unsubstantiated accounting entries. The consolidated complaint alleges that the defendants made material misstatements and omissions concerning the Company's financial results

for 2008 and 2009, seeks an unspecified amount of damages, and alleges violations of sections 10(b) and 20(a) of the Securities Exchange Act of 1934, and sections 11 and 15 of the Securities Act of 1933. The Company believes it has meritorious defenses to these allegations and will vigorously defend itself in these matters. The court held a hearing on the defendants' motions to dismiss the consolidated complaint on November 4, 2010. The court dismissed the consolidated complaint with leave to amend on March 1, 2011. An amended complaint was filed on April 18, 2011. The amended complaint added two former employees as defendants. Defendants filed motions to dismiss the amended complaint on May 23, 2011. The motions to dismiss the amended complaint were heard by the court on August 11, 2011. On December 19, 2011, the court granted in part and denied in part the motions to dismiss, dismissing the claims brought pursuant to sections 11 and 15 of the Securities Act of 1933 and the claims brought against the two newly added former employees. The Company is currently unable to determine if the resolution of these matters will have an adverse effect on the Company's financial position, liquidity or results of operations.

Derivative actions purporting to be brought on the Company's behalf have also been filed in state and federal courts against several of the Company's current and former officers and directors based on the same events alleged in the securities class action lawsuits described above. The California state derivative cases were consolidated as *In re SunPower Corp. S'holder Derivative Litig.*, Lead Case No. 1-09-CV-158522 (Santa Clara Sup. Ct.), and co-lead counsel for plaintiffs have been appointed. The complaints assert state-law claims for breach of fiduciary duty, abuse of control, unjust enrichment, gross mismanagement, and waste of corporate assets. Plaintiffs filed a consolidated amended complaint on March 5, 2012. The federal derivative complaints were consolidated as *In re SunPower Corp. S'holder Derivative Litig.*, Master File No. CV-09-05731-RS (N.D. Cal.), and lead plaintiffs and co-lead counsel were appointed on January 4, 2010. The federal complaints assert state-law claims for breach of fiduciary duty, waste of corporate assets, and unjust enrichment, and seek an unspecified amount of damages. Plaintiffs filed a consolidated complaint on May 13, 2011. A Delaware state derivative case, *Brenner v. Albrecht, et al.*, C.A. No. 6514-VCP (Del Ch.), was filed on May 23, 2011 in the Delaware Court of Chancery. The complaint asserts state-law claims for breach of fiduciary duty and contribution and indemnification, and seeks an unspecified amount of damages. The Company intends to oppose all the derivative plaintiffs' efforts to pursue this litigation on the Company's behalf. Defendants moved to stay or dismiss the Delaware derivative action on July 5, 2011. The motion to stay was heard by the court on October 27, 2011, and on January 27, 2012 the court granted the Company's motion and stayed the case indefinitely subject to plaintiff seeking to lift the stay under specified conditions. The Company is currently unable to determine if the resolution of these matters will have an adverse effect on the Company's financial position, liquidity or results of operations.

The Company is also a party to various other litigation matters and claims that arise from time to time in the ordinary course of its business. While the Company believes that the ultimate outcome of such matters will not have a material adverse effect on the Company, their outcomes are not determinable and negative outcomes may adversely affect the Company's financial position, liquidity or results of operations.

Note 9. JOINT VENTURES

Joint Venture with Woongjin Energy Co., Ltd ("Woongjin Energy")

The Company and Woongjin Holdings Co., Ltd. ("Woongjin") formed Woongjin Energy in fiscal 2006, a joint venture to manufacture monocrystalline silicon ingots in Korea. The Company supplies polysilicon, services, and technical support required for silicon ingot manufacturing to Woongjin Energy. Once manufactured, the Company purchases the silicon ingots from Woongjin Energy under a nine-year agreement through 2016. There is no obligation or expectation for the Company to provide additional funding to Woongjin Energy.

On June 30, 2010, Woongjin Energy completed its initial public offering ("IPO") and the sale of 15.9 million new shares of common stock. As a result of the completion of the IPO, the Company concluded that Woongjin Energy is no longer a variable interest entity ("VIE"). During the second half of fiscal 2011, the Company sold 15.5 million shares of Woongjin Energy on the open market subsequently reducing the Company's percentage equity ownership in Woongjin Energy from 31% to 6%. As of January 1, 2012, the Company held 3.9 million shares of Woongjin Energy. During the first quarter of fiscal 2012, the Company sold its remaining shares of Woongjin Energy on the open market for total proceeds, net of tax, amounting to \$14.0 million, which equaled the remaining investment carrying balance. As a result, the Company's percentage equity ownership and investment carrying balance was reduced to zero. During the first quarter of fiscal 2012, the Company collected \$3.4 million of net proceeds associated with fiscal 2011 sales, the balance of which is included in "Prepaid expenses and other current assets" on the Company's Condensed Consolidated Balance Sheet as of January 1, 2012 due to timing of cash settlement for trades executed near year end.

As of April 1, 2012 and January 1, 2012, the Company's carrying value of its investment in Woongjin Energy totaled zero and \$14.0 million, respectively, in its Condensed Consolidated Balance Sheets. The Company accounted for

its former investment in Woongjin Energy using the equity method as the Company was able to exercise significant influence over Woongjin Energy due to its board position and its consumption of a significant portion of their output. The Company's former investment is classified as "Other long-term assets" in the Condensed Consolidated Balance Sheets as of January 1, 2012 and the Company's share of Woongjin Energy's income totaling zero and \$4.5 million for the three months ended April 1, 2012 and April 3, 2011, respectively, is included in "Equity in earnings (loss) of unconsolidated investees" in the Condensed Consolidated Statements of Operations.

As of April 1, 2012 and January 1, 2012, \$16.2 million and \$24.4 million, respectively, remained due and receivable from Woongjin Energy related to polysilicon the Company supplied to Woongjin Energy for silicon ingot manufacturing. Payments to Woongjin Energy for manufactured silicon ingots totaled \$59.6 million and \$48.8 million during the three months ended April 1, 2012 and April 3, 2011, respectively. As of April 1, 2012 and January 1, 2012, \$19.3 million and \$44.1 million, respectively, remained due and payable to Woongjin Energy.

Joint Venture with First Philec Solar Corporation ("First Philec Solar")

The Company and First Philippine Electric Corporation ("First Philec") formed First Philec Solar in fiscal 2007, a joint venture to provide wafer slicing services of silicon ingots to the Company in the Philippines. The Company supplies to First Philec Solar silicon ingots and technology required for slicing silicon. Once manufactured, the Company purchases the completed silicon wafers from First Philec Solar under a six-year wafering supply and sales agreement through 2013. There is no obligation or expectation for the Company to provide additional funding to First Philec Solar.

As of both April 1, 2012 and January 1, 2012, the Company's carrying value of its investment in the joint venture totaled \$6.9 million in its Condensed Consolidated Balance Sheets which represented a 15% equity investment in both periods. The Company accounts for its investment in First Philec Solar using the equity method since the Company is able to exercise significant influence over First Philec Solar due to its board positions. The Company's investment is classified as "Other long-term assets" in the Condensed Consolidated Balance Sheets and the Company's share of First Philec Solar's income of zero and \$0.5 million for the three months ending April 1, 2012 and April 3, 2011, respectively, is included in "Equity in earnings (loss) of unconsolidated investees" in the Condensed Consolidated Statements of Operations. As of April 1, 2012, the Company's maximum exposure to loss as a result of its involvement with First Philec Solar was limited to the carrying value of its investment.

As of April 1, 2012 and January 1, 2012, \$8.9 million and \$8.1 million, respectively, remained due and receivable from First Philec Solar related to the wafer slicing process of silicon ingots supplied by the Company to First Philec Solar. Payments to First Philec Solar for wafer slicing services of silicon ingots totaled \$24.0 million and \$28.4 million during the three months ended April 1, 2012 and April 3, 2011, respectively. As of April 1, 2012 and January 1, 2012, \$9.8 million and \$8.0 million, respectively, remained due and payable to First Philec Solar related to the purchase of silicon wafers.

The Company has concluded that it is not the primary beneficiary of First Philec Solar since, although the Company and First Philec are both obligated to absorb losses or have the right to receive benefits from First Philec Solar that are significant to First Philec Solar, such variable interests held by the Company do not empower it to direct the activities that most significantly impact First Philec Solar's economic performance. In reaching this determination, the Company considered the significant control exercised by First Philec over the joint venture's Board of Directors, management and daily operations.

Joint Venture with AUOSP

The Company, through its subsidiaries SunPower Technology, Ltd. ("SPTL") formed the joint venture AUOSP, formerly SunPower Malaysia Manufacturing Sdn. Bhd., with AUO and AU Optronics Corporation, the ultimate parent company of AUO ("AUO Taiwan") in the third quarter of fiscal 2010. The Company, through SPTL, and AUO each own 50% of the joint venture AUOSP. AUOSP owns a solar cell manufacturing facility ("FAB 3") in Malaysia and manufactures solar cells and sells them on a "cost-plus" basis to the Company and AUO.

In connection with the joint venture agreement, the Company and AUO also entered into licensing and joint development, supply, and other ancillary transaction agreements. Through the licensing agreement, SPTL and AUO licensed to AUOSP, on a non-exclusive, royalty-free basis, certain background intellectual property related to solar cell manufacturing (in the case of SPTL), and manufacturing processes (in the case of AUO). Under the seven-year supply agreement with AUOSP, renewable by the Company for one-year periods thereafter, the percentage of AUOSP's total annual output allocated on a monthly basis to the Company, which the Company is committed to purchase, ranges from 95% in the fourth quarter of fiscal 2010 to 80% in fiscal year 2013 and thereafter. The Company and AUO have the right to reallocate supplies from time to time under a written agreement. As required under the joint venture agreement, in fiscal 2010, the Company and AUOSP entered

into an agreement under which the Company will resell to AUOSP polysilicon purchased from a third-party supplier and AUOSP will provide prepayments to the Company related to such polysilicon, which prepayment will then be made by the Company to the third-party supplier.

The Company and AUO are not permitted to transfer any of AUOSP's shares held by them, except to each other and to their direct or indirect wholly-owned subsidiaries. The Company and AUO will each contribute additional amounts through 2014 amounting to \$241.0 million, or such lesser amount as the parties may mutually agree. In addition, if AUOSP, SPTL or AUO requests additional equity financing to AUOSP, then SPTL and AUO will each be required to make additional cash contributions of up to \$50.0 million in the aggregate (See Note 8).

The Company has concluded that it is not the primary beneficiary of AUOSP since, although the Company and AUO are both obligated to absorb losses or have the right to receive benefits, the Company alone does not have the power to direct the activities of AUOSP that most significantly impact its economic performance. In making this determination the Company considered the shared power arrangement, including equal board governance for significant decisions, elective appointment, and the fact that both parties contribute to the activities that most significantly impact the joint venture's economic performance. As a result of the shared power arrangement the Company deconsolidated AUOSP in the third quarter of fiscal 2010 and accounts for its investment in the joint venture under the equity method.

As of April 1, 2012 and January 1, 2012, the Company's carrying value of its investment (which represents its 50% equity investment) totaled \$105.6 million and \$109.0 million, respectively, in its Condensed Consolidated Balance Sheets. The Company accounts for its investment in AUOSP using the equity method in which the investment is classified as "Other long-term assets" in the Condensed Consolidated Balance Sheets. The Company's share of AUOSP's net loss for the three months ended April 1, 2012 totaled \$3.4 million and its share of AUOSP's net income for the three months ended April 3, 2011 totaled \$2.2 million, which is included in "Equity in earnings (loss) of unconsolidated investees" in the Condensed Consolidated Statement of Operations. The Company accounts for its share of AUOSP's net income (loss) with a quarterly lag in reporting.

As of April 1, 2012 and January 1, 2012, \$33.9 million, and \$66.4 million, respectively, remained due and receivable from AUOSP and \$81.2 million and \$101.7 million, respectively, remained due and payable to AUOSP. Payments to AUOSP for solar cells totaled \$156.0 million and \$27.9 million during the three months ended April 1, 2012 and April 3, 2011, respectively. As of April 1, 2012, the Company's maximum exposure to loss as a result of its involvement with AUOSP is limited to the carrying value of its investment.

Note 10. DEBT AND CREDIT SOURCES

The following table summarizes the Company's outstanding debt as of April 1, 2012 and the related maturity dates:

(In thousands)	Face Value	Payments Due by Period					
		2012 (remaining nine months)	2013	2014	2015	2016	Beyond 2016
Convertible debt:							
4.50% debentures	\$ 250,000	\$ —	\$ —	\$ —	\$ 250,000	\$ —	\$ —
4.75% debentures	230,000	—	—	230,000	—	—	—
0.75% debentures	79	—	—	—	79	—	—
IFC mortgage loan	75,000	—	12,500	15,000	15,000	15,000	17,500
CEDA loan	30,000	—	—	—	—	—	30,000
Credit Agricole revolving credit facility	150,000	—	150,000	—	—	—	—
Other long-term debt (1) (2)	1,233	—	—	—	—	—	1,233
	<u>\$ 736,312</u>	<u>\$ —</u>	<u>\$ 162,500</u>	<u>\$ 245,000</u>	<u>\$ 265,079</u>	<u>\$ 15,000</u>	<u>\$ 48,733</u>

- (1) On January 31, 2012, the Company completed its acquisition of Tenesol. In fiscal 2003 and fiscal 2008 Tenesol entered into three non-recourse project loans which are scheduled to mature through 2028. As of both April 1, 2012 and January 1, 2012 these outstanding borrowings totaled \$1.2 million which are classified as "Long-term debt" in the Company's Condensed Consolidated Balance Sheets.

- (2) The balance of Other long-term debt excludes payments related to capital leases which are disclosed in Note 8. "Commitments and Contingencies" to these condensed consolidated financial statements.

Convertible Debt

The following table summarizes the Company's outstanding convertible debt (which is additionally reflected in the table above):

(In thousands)	April 1, 2012			January 1, 2012		
	Carrying Value	Face Value	Fair Value (1)	Carrying Value	Face Value	Fair Value (1)
4.50% debentures	\$ 196,772	\$ 250,000	\$ 217,500	\$ 193,189	\$ 250,000	\$ 205,905
4.75% debentures	230,000	230,000	225,400	230,000	230,000	200,967
1.25% debentures (2)	—	—	—	196,710	198,608	197,615
0.75% debentures	79	79	79	79	79	79
	<u>\$ 426,851</u>	<u>\$ 480,079</u>	<u>\$ 442,979</u>	<u>\$ 619,978</u>	<u>\$ 678,687</u>	<u>\$ 604,566</u>

- (1) The fair value of the convertible debt was determined using Level 1 inputs based on quoted market prices as reported by an independent pricing source.
- (2) The carrying value of the 1.25% senior convertible debentures ("1.25% debentures") was classified as short-term liabilities within "Convertible debt, current portion" in the Condensed Consolidated Balance Sheet as of January 1, 2012 due to the holders' ability to require the Company to repurchase all of their 1.25% debentures on February 15, 2012. On February 16, 2012, the Company repurchased 100% of the outstanding principal amount of the 1.25% debentures plus accrued and unpaid interest.

4.50% Debentures

On April 1, 2010, the Company issued \$220.0 million in principal amount of its 4.50% senior cash convertible debentures ("4.50% debentures"). On April 5, 2010, the initial purchasers of the 4.50% debentures exercised the \$30.0 million over-allotment option in full. Interest is payable semi-annually, on March 15 and September 15 of each year, at a rate of 4.50% per annum which commenced on September 15, 2010. The 4.50% debentures mature on March 15, 2015 unless repurchased or converted in accordance with their terms prior to such date. The 4.50% debentures are convertible only into cash, and not into shares of the Company's common stock (or any other securities).

The embedded cash conversion option within the 4.50% debentures and the over-allotment option related to the 4.50% debentures are derivative instruments that are required to be separated from the 4.50% debentures and accounted for separately as derivative instruments (derivative liabilities) with changes in fair value reported in the Company's Condensed Consolidated Statements of Operations until such transactions settle or expire. The over-allotment option was settled on April 5, 2010, however, the embedded cash conversion option continues to require mark-to-market treatment. The initial fair value liabilities of the embedded cash conversion option and over-allotment option were classified within "Other long-term liabilities" and simultaneously reduced the carrying value of "Convertible debt, net of current portion" in the Company's Condensed Consolidated Balance Sheet.

During the three months ended April 1, 2012 and April 3, 2011, the Company recognized a non-cash loss of \$1.6 million and \$21.9 million, respectively, recorded in "Gain (loss) on mark-to-market derivatives" in the Company's Condensed Consolidated Statement of Operations related to the change in fair value of the embedded cash conversion option. The fair value liability of the embedded cash conversion option as of April 1, 2012 and January 1, 2012 totaled \$2.4 million and \$0.8 million, respectively, and is classified within "Other long-term liabilities" in the Company's Condensed Consolidated Balance Sheets.

The embedded cash conversion option is fair valued utilizing Level 2 inputs consisting of the exercise price of the instrument, the Company's common stock price and volatility, the risk free interest rate and the contractual term. Such derivative instruments are not traded on an open market as the banks are the counterparties to the instruments.

Significant inputs for the valuation of the embedded cash conversion option are as follows:

	As of (1)	
	April 1, 2012	January 1, 2012
Stock price	\$ 6.38	\$ 6.23
Exercise price	\$ 22.53	\$ 22.53
Interest rate	0.73%	0.84%
Stock volatility	46.40%	44.00%
Maturity date	February 18, 2015	February 18, 2015

- (1) The valuation model utilizes these inputs to value the right but not the obligation to purchase one share at \$22.53. The Company utilized a Black-Scholes valuation model to value the embedded cash conversion option. The underlying input assumptions were determined as follows:
- (i) Stock price. The closing price of the Company's common stock on the last trading day of the quarter.
 - (ii) Exercise price. The exercise price of the embedded conversion option.
 - (iii) Interest rate. The Treasury Strip rate associated with the life of the embedded conversion option.
 - (iv) Stock volatility. The volatility of the Company's common stock over the life of the embedded conversion option.

Call Spread Overlay with Respect to 4.50% Debentures ("CSO2015")

Concurrent with the issuance of the 4.50% debentures, the Company entered into privately negotiated convertible debenture hedge transactions (collectively, the "4.50% Bond Hedge") and warrant transactions (collectively, the "4.50% Warrants" and together with the 4.50% Bond Hedge, the "CSO2015"), with certain of the initial purchasers of the 4.50% cash convertible debentures or their affiliates. The CSO2015 transactions represent a call spread overlay with respect to the 4.50% debentures, whereby the cost of the 4.50% Bond Hedge purchased by the Company to cover the cash outlay upon conversion of the debentures is reduced by the sales prices of the 4.50% Warrants. Assuming full performance by the counterparties (and 4.50% Warrants strike prices in excess of the conversion price of the 4.50% debentures), the transactions effectively reduce the Company's potential payout over the principal amount on the 4.50% debentures upon conversion of the 4.50% debentures.

Under the terms of the 4.50% Bond Hedge, the Company bought from affiliates of certain of the initial purchasers options to acquire, at an exercise price of \$22.53 per share, subject to customary adjustments for anti-dilution and other events, cash in an amount equal to the market value of up to 11.1 million shares of the Company's common stock. Under the terms of the original 4.50% Warrants, as amended and restated on December 23, 2010, the Company sold to affiliates of certain of the initial purchasers of the 4.50% cash convertible debentures warrants to acquire, at an exercise price of \$27.03 per share, subject to customary adjustments for anti-dilution and other events, up to 11.1 million shares of the Company's common stock. Each 4.50% Bond Hedge and 4.50% Warrant transaction is a separate transaction, entered into by the Company with each counterparty, and is not part of the terms of the 4.50% debentures. According to the counterparties to the warrants, the consummation of the Total Tender Offer triggered their rights to make a downward adjustment to the strike price of the warrants. In the third quarter of fiscal 2011, the Company and the counter parties to the 4.50% Warrants agreed to reduce the exercise price of the 4.50% Warrants from \$27.03 to \$24.00.

The 4.50% Bond Hedge, which is indexed to the Company's common stock, is a derivative instrument that requires mark-to-market accounting treatment due to the cash settlement features until such transactions settle or expire. The initial fair value of the 4.50% Bond Hedge was classified as "Other long-term assets" in the Company's Condensed Consolidated Balance Sheets.

During the three months ended April 1, 2012 and April 3, 2011, the Company recognized a non-cash gain of \$1.6 million and \$21.8 million, respectively, in "Gain (loss) on mark-to-market derivatives" in the Company's Condensed Consolidated Statement of Operations related to the change in fair value of the 4.50% Bond Hedge. The fair value of the 4.50% Bond Hedge as of April 1, 2012 and January 1, 2012 totaled \$2.4 million and \$0.8 million, respectively, and is classified within "Other long-term assets" in the Company's Condensed Consolidated Balance Sheets.

The 4.50% Bond Hedge derivative instruments are fair valued utilizing Level 2 inputs consisting of the exercise price of the instruments, the Company's common stock price and volatility, the risk free interest rate and the contractual term. Such derivative instruments are not traded on an open market. Valuation techniques utilize the inputs described above in addition to liquidity and institutional credit risk inputs.

Significant inputs for the valuation of the 4.50% Bond Hedge are as follows:

	As of (1)	
	April 1, 2012	January 1, 2012
Stock price	\$ 6.38	\$ 6.23
Exercise price	\$ 22.53	\$ 22.53
Interest rate	0.73%	0.84%
Stock volatility	46.40%	44.00%
Credit risk adjustment	2.26%	1.93%
Maturity date	February 18, 2015	February 18, 2015

- (1) The valuation model utilizes these inputs to value the right but not the obligation to purchase one share at \$22.53 for the 4.50% Bond Hedge. The Company utilized a Black-Scholes valuation model to value the 4.50% Bond Hedge. The underlying input assumptions were determined as follows:
- (i) Stock price. The closing price of the Company's common stock on the last trading day of the quarter.
 - (ii) Exercise price. The exercise price of the 4.50% Bond Hedge.
 - (iii) Interest rate. The Treasury Strip rate associated with the life of the 4.50% Bond Hedge.
 - (iv) Stock volatility. The volatility of the Company's common stock over the life of the 4.50% Bond Hedge.
 - (v) Credit risk adjustment. Represents the weighted average of the credit default swap rate of the counterparties.

1.25% Debentures

In February 2007, the Company issued \$200.0 million in principal amount of its 1.25% senior convertible debentures and received net proceeds of \$194.0 million. During the fourth quarter of fiscal 2008, the Company received notices for the conversion of \$1.4 million in principal amount of the 1.25% debentures which it settled for \$1.2 million in cash and 1,000 shares of common stock. As of January 1, 2012, an aggregate principal amount of \$198.6 million of the 1.25% debentures remained issued and outstanding. The 1.25% debentures had a maturity date of February 15, 2027 unless repurchased or converted in accordance with their terms prior to such date. Holders had the option to require the Company to repurchase all or a portion of their 1.25% debentures on each of February 15, 2012, February 15, 2017 and February 15, 2022, or if the Company experiences certain types of corporate transactions constituting a fundamental change, as defined in the indenture governing the 1.25% debentures. In addition, the Company could redeem some or all of the 1.25% debentures on or after February 15, 2012. Accordingly, the Company classified the 1.25% debentures as short-term liabilities in the Condensed Consolidated Balance Sheets as of January 2, 2011, respectively. On February 16, 2012, based upon the exercise of the holders' put rights, the Company repurchased \$198.6 million in principal amount of the 1.25% debentures at a cash price of \$199.8 million, representing 100% of the principal amount of the 1.25% debentures plus accrued and unpaid interest. None of the 1.25% debentures remained issued and outstanding after the repurchase.

July 2007 Share Lending Arrangement

Concurrent with the offering of the 0.75% debentures, the Company lent 1.8 million shares of its former class A common stock to CSI, an affiliate of Credit Suisse Securities (USA) LLC ("Credit Suisse"), one of the underwriters of the 0.75% debentures. The loaned shares were to be used to facilitate the establishment by investors in the 1.25% debentures and 0.75% debentures of hedged positions in the Company's common stock. The Company did not receive any proceeds from these offerings of former class A common stock, but received a nominal lending fee of \$0.001 per share for each share of common stock that is loaned under the share lending agreements described below.

Share loans under the share lending agreement terminate and the borrowed shares must be returned to the Company under the following circumstances: (i) CSI may terminate all or any portion of a loan at any time; (ii) the Company may terminate any or all of the outstanding loans upon a default by CSI under the share lending agreement, including a breach by CSI of any of its representations and warranties, covenants or agreements under the share lending agreement, or the bankruptcy or administrative proceeding of CSI; or (iii) if the Company enters into a merger or similar business combination transaction with an unaffiliated third party (as defined in the agreement). In addition, CSI has agreed to return to the Company any borrowed shares in its possession on the date anticipated to be five business days before the closing of certain merger or similar business combinations described in the share lending agreement. Except in limited circumstances, any such shares returned to the Company cannot be re-borrowed.

Any shares loaned to CSI are considered issued and outstanding for corporate law purposes and, accordingly, the holders of the borrowed shares have all of the rights of a holder of the Company's outstanding shares, including the right to vote the shares on all matters submitted to a vote of the Company's stockholders and the right to receive any dividends or other distributions that the Company may pay or make on its outstanding shares of common stock. However, CSI agreed that it will not participate in shareholder voting matters and further agreed to pay to the Company an amount equal to any dividends or other distributions that the Company pays on the borrowed shares.

While the share lending agreement does not require cash payment upon return of the shares, physical settlement is required (i.e., the loaned shares must be returned at the end of the arrangement). In view of this share return provision and other contractual undertakings of CSI in the share lending agreement, which have the effect of substantially eliminating the economic dilution that otherwise would result from the issuance of the borrowed shares, historically the loaned shares were not considered issued and outstanding for the purpose of computing and reporting the Company's basic and diluted weighted average shares or earnings per share.

In connection with the Company's repurchase of 100% of the principal amount of the 1.25% debentures, on February 23, 2012, the 1.8 million shares of the Company's common stock lent to CSI were returned and the share lending agreement was thereby terminated.

Mortgage Loan Agreement with IFC

On May 6, 2010, SPML and SPML Land, Inc. ("SPML Land"), both subsidiaries of the Company, entered into a mortgage loan agreement with IFC. Under the loan agreement, SPML may borrow up to \$75.0 million from IFC, after satisfying certain conditions to disbursement, and SPML and SPML Land pledged certain assets as collateral supporting SPML's repayment obligations. The Company guaranteed SPML's obligations to IFC.

Under the loan agreement, SPML may borrow up to \$75.0 million during the first two years, and SPML shall repay the amount borrowed, starting 2 years after the date of borrowing, in 10 equal semiannual installments over the following 5 years. SPML shall pay interest of LIBOR plus 3% per annum on outstanding borrowings, and a front-end fee of 1% on the principal amount of borrowings at the time of borrowing, and a commitment fee of 0.5% per annum on funds available for borrowing and not borrowed. SPML may prepay all or a part of the outstanding principal, subject to a 1% prepayment premium. The loan agreement includes conditions to disbursements, representations, covenants, and events of default customary for financing transactions of this type. Covenants in the loan agreement include, but are not limited to, restrictions on SPML's ability to issue dividends, incur indebtedness, create or incur liens on assets, and make loans to or investments in third parties. As of April 1, 2012, the Company has obtained a waiver from IFC related to a payment dispute with a third party. The waiver extends to June 30, 2012. Additionally, in accordance with the terms of the mortgage loan agreement, the Company is required to establish a debt service reserve account which shall contain the amount, as determined by IFC, equal to the aggregate principal and interest due on the next succeeding interest payment date after such date. As of April 1, 2012 and January 1, 2012, the Company had restricted cash and cash equivalents of \$1.4 million and \$1.3 million, respectively, related to the IFC debt service reserve.

As of both April 1, 2012 and January 1, 2012, SPML had \$75.0 million outstanding under the mortgage loan agreement which is classified as "Long-term debt" in the Company's Condensed Consolidated Balance Sheets.

August 2011 Letter of Credit Facility with Deutsche Bank

On August 9, 2011, the Company entered into a letter of credit facility agreement with Deutsche Bank, as issuing bank and as administrative agent, and certain financial institutions, and further amended on December 20, 2011. Payment of obligations under the letter of credit facility is guaranteed by Total S.A. pursuant to the Credit Support Agreement. The letter of credit facility provides for the issuance, upon request by the Company, of letters of credit by the issuing banks thereunder in order to support certain obligations of the Company, in an aggregate amount not to exceed (a) \$725.0 million until December 31, 2012; and (b) \$771.0 million for the period from January 1, 2013 through December 31, 2013. Aggregate letter of credit amounts may be increased upon the agreement of the parties but, otherwise, may not exceed (i) \$878.0 million for the period from January 1, 2014 through December 31, 2014; (ii) \$936.0 million for the period from January 1, 2015 through December 31, 2015; and (iii) \$1.0 billion for the period from January 1, 2016 through June 28, 2016.

As of April 1, 2012, letters of credit issued under the August 2011 letter of credit facility with Deutsche Bank totaled \$708.5 million.

September 2011 Letter of Credit Facility with Deutsche Bank Trust

On September 27, 2011, the Company entered into a letter of credit facility with Deutsche Bank Trust which provides for the issuance, upon request by the Company, letters of credit to support obligations of the Company in an aggregate amount not to exceed \$200.0 million. Each letter of credit issued under the facility is fully cash-collateralized and the Company has entered into a security agreement with Deutsche Bank Trust, granting them a security interest in a cash collateral account established for this purpose.

As of April 1, 2012 letters of credit issued under the Deutsche Bank Trust facility amounted to \$4.4 million which were fully collateralized with restricted cash on the Condensed Consolidated Balance Sheets.

September 2011 Revolving Credit Facility with Credit Agricole

On September 27, 2011, the Company entered into a revolving credit agreement with Credit Agricole, as administrative agent, and certain financial institutions, under which the Company may borrow up to \$275.0 million until September 27, 2013. Amounts borrowed may be repaid and reborrowed until September 27, 2013.

The Company is required to pay interest on outstanding borrowings of (a) with respect to any LIBOR loan, 1.5% plus the LIBOR divided by a percentage equal to one minus the stated maximum rate of all reserves required to be maintained against "Eurocurrency liabilities" as specified in Regulation D; (b) with respect to any alternative base loan, 0.5% plus the greater of (1) the prime rate, (2) the Federal Funds rate plus 0.5%, and (3) the one month LIBOR plus 1%; (c) a commitment fee equal to 0.25% per annum on funds available for borrowing and not borrowed; (d) an upfront fee of 0.125% of the revolving loan commitment; and (e) arrangement fee customary for a transaction of this type.

As of January 1, 2012, \$250.0 million was outstanding under the revolving credit facility with Credit Agricole which amount is classified as "Long term debt" on the Company's Condensed Consolidated Balance Sheets. In March 2012, the Company repaid \$100.0 million of outstanding borrowings plus fees. As of April 1, 2012, \$150.0 million was outstanding under the revolving credit facility with Credit Agricole which amount is classified as "Long term debt" on the Company's Condensed Consolidated Balance Sheets. As of April 1, 2012 an additional \$125.0 million remained available for borrowing under this facility.

Liquidity Support Agreement with Total S.A.

On February 28, 2012, the Company entered into a Liquidity Support Agreement with Total S.A. and the DOE, and a series of related agreements with Total S.A. and Total, under which Total S.A. has agreed to provide the Company, or cause to be provided, additional liquidity under certain circumstances to a maximum amount of \$600.0 million. In return for Total S.A.'s agreement to provide the Liquidity Support Facility, on February 28, 2012, the Company issued to Total a seven-year warrant to purchase 9,531,677 shares of the Company's common stock at an exercise price of \$7.8685 per share. The fair value of the warrants upon issuance was \$50.3 million, which is recorded as capitalized financing costs on the Condensed Consolidated Balance Sheet and amortized as interest expense over the expected life of the agreement. In connection with the Liquidity Support Agreement, the Company also entered into a Compensation and Funding Agreement with Total S.A., and a Private Placement Agreement and a Revolving Credit and Convertible Loan Agreement with Total (see Note 2). As of April 1, 2012, there was no amount outstanding under this facility.

Other Debt and Credit Sources

There has been no significant change in the Company's remaining debt balance, composition or terms since the end of the most recently completed fiscal year end other than as described above. Additional details regarding the Company's debt arrangements may be referenced from the Company's annual consolidated financial statements and notes thereto for the year ended January 1, 2012 included in the fiscal 2011 Form 10-K and its Form 8-Ks subsequently filed with the SEC.

Note 11. FOREIGN CURRENCY DERIVATIVES

The Company has non-U.S. subsidiaries that operate and sell the Company's products in various global markets, primarily in Europe. As a result, the Company is exposed to risks associated with changes in foreign currency exchange rates. It is the Company's policy to use various techniques, including entering into foreign currency derivative instruments, to manage the exposures associated with forecasted revenues, purchases of foreign sourced equipment and non-U.S. dollar denominated monetary assets and liabilities. The Company does not enter into foreign currency derivative financial instruments for speculative or trading purposes.

The Company is required to recognize derivative instruments as either assets or liabilities at fair value in its Balance

[Table of Contents](#)

Sheets. The Company utilizes the income approach and mid-market pricing to calculate the fair value of its option and forward contracts based on market volatilities, spot and forward rates, interest rates, and credit default swaps rates from published sources. The following table presents information about the Company's hedge instruments measured at fair value on a recurring basis as of April 1, 2012 and January 1, 2012, all of which utilize Level 2 inputs under the fair value hierarchy:

(In thousands)	Balance Sheet Classification	April 1, 2012	January 1, 2012
Assets	Prepaid expenses and other current assets		
Derivatives designated as hedging instruments:			
Foreign currency option contracts		\$ 3,281	\$ 5,550
Foreign currency forward exchange contracts		102	47
		<u>\$ 3,383</u>	<u>\$ 5,597</u>
Derivatives not designated as hedging instruments:			
Foreign currency option contracts		\$ 1,440	\$ 5,080
Foreign currency forward exchange contracts		6,172	23,745
		<u>\$ 7,612</u>	<u>\$ 28,825</u>
Liabilities	Accrued liabilities		
Derivatives designated as hedging instruments:			
Foreign currency option contracts		\$ 4	\$ —
Foreign currency forward exchange contracts		—	105
		<u>\$ 4</u>	<u>\$ 105</u>
Derivatives not designated as hedging instruments:			
Foreign currency forward exchange contracts		\$ 7,345	\$ 14,830

Valuations are based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly. The selection of a particular technique to value an over-the-counter ("OTC") foreign currency derivative depends upon the contractual term of, and specific risks inherent with, the instrument as well as the availability of pricing information in the market. The Company generally uses similar techniques to value similar instruments. Valuation techniques utilize a variety of inputs, including contractual terms, market prices, yield curves, credit curves and measures of volatility. For OTC foreign currency derivatives that trade in liquid markets, such as generic forward and option contracts, inputs can generally be verified and selections do not involve significant management judgment.

The following table summarizes the amount of unrealized loss recognized in "Accumulated other comprehensive income" ("OCI") in "Stockholders' equity" in the Condensed Consolidated Balance Sheets:

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Derivatives designated as cash flow hedges:		
Unrealized loss recognized in OCI (effective portion)	\$ (2,425)	\$ (47,993)
Less: Loss (gain) reclassified from OCI to revenue (effective portion)	(3,325)	3,055
Less: Gain reclassified from OCI to other, net (1)	—	3,889
Net loss on derivatives	<u>\$ (5,750)</u>	<u>\$ (41,049)</u>

- (1) The Company reclassified from OCI to "Other, net" a net loss totaling \$3.9 million during the three months ended April 3, 2011, relating to transactions previously designated as effective cash flow hedges as the Company concluded that the related forecasted transactions are probable not to occur in the hedge period or within an additional two month time period thereafter.

The following table summarizes the amount of loss recognized in "Other, net" in the Condensed Consolidated Statements of Operations in the three months ended April 1, 2012 and April 3, 2011:

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Derivatives designated as cash flow hedges:		
Loss recognized in "Other, net" on derivatives (ineffective portion and amount excluded from effectiveness testing) (1)	\$ (365)	\$ (12,692)
Derivatives not designated as hedging instruments:		
Loss recognized in "Other, net"	\$ (1,290)	\$ (38,195)

- (1) The amount of loss recognized related to the ineffective portion of derivatives was insignificant. This amount also includes a net \$3.9 million loss reclassified from OCI to "Other, net" in the three months ended April 3, 2011 relating to transactions previously designated as effective cash flow hedges which did not occur or were now probable not to occur in the hedge period or within an additional two month time period thereafter.

Foreign Currency Exchange Risk

Designated Derivatives Hedging Cash Flow Exposure

The Company's subsidiaries have had and will continue to have material cash flows, including revenues and expenses, which are denominated in currencies other than their functional currencies. The Company's cash flow exposure primarily relates to anticipated third party foreign currency revenues and expenses. Changes in exchange rates between the Company's subsidiaries' functional currencies and other currencies in which it transacts will cause fluctuations in margin, cash flows expectations, and cash flows realized or settled. Accordingly, the Company enters into derivative contracts to hedge the value of a portion of these forecasted cash flows and to protect financial performance.

As of April 1, 2012, the Company had designated outstanding cash flow hedge option contracts and forward contracts with an aggregate notional value of \$48.0 million and \$45.0 million, respectively. The maturity dates of the outstanding contracts as of April 1, 2012 range from April to July 2012. As of January 1, 2012, the Company had designated outstanding hedge option contracts and forward contracts with an aggregate notional value of \$67.2 million and \$38.8 million, respectively. The Company designates either gross external or intercompany revenue up to its net economic exposure. These derivatives have a maturity of one year or less and consist of foreign currency option and forward contracts. The effective portion of these cash flow hedges are reclassified into revenue when third party revenue is recognized in the Condensed Consolidated Statements of Operations.

The Company expects to reclassify the majority of its net gains related to these option and forward contracts that are included in accumulated other comprehensive gain as of April 1, 2012 to revenue in the next 12 months. Cash flow hedges are tested for effectiveness each period based on changes in the spot rate applicable to the hedge contracts against the present value period to period change in spot rates applicable to the hedged item using regression analysis. The change in the time value of the options and the change in the forward points on forward exchange contracts are excluded from the Company's assessment of hedge effectiveness. The premium paid or time value of an option whose strike price is equal to or greater than the market price on the date of purchase is recorded as an asset in the Condensed Consolidated Balance Sheets. Thereafter, any change to this time value and the forward points is included in "Other, net" in the Condensed Consolidated Statements of Operations.

Under hedge accounting rules for foreign currency derivatives, the Company reflects mark-to-market gains and losses on its hedged transactions in accumulated other comprehensive income (loss) rather than current earnings until the hedged transactions occur. However, if the Company determines that the anticipated hedged transactions are probable not to occur, it must immediately reclassify any cumulative market gains and losses into its Condensed Consolidated Statement of Operations. During the three months ended April 1, 2012, the Company determined that all its anticipated hedged transactions were probable to occur.

Non-Designated Derivatives Hedging Transaction Exposure

Other derivatives not designated as hedging instruments consist of forward contracts used to hedge re-measurement of foreign currency denominated monetary assets and liabilities primarily for intercompany transactions, receivables from customers, and payables to third parties. Changes in exchange rates between the Company's subsidiaries' functional currencies and the currencies in which these assets and liabilities are denominated can create fluctuations in the Company's reported consolidated financial position, results of operations and cash flows. The Company enters into forward contracts, which are

originally designated as cash flow hedges, and de-designates them upon recognition of the anticipated transaction to protect resulting non-functional currency monetary assets. These forward contracts as well as additional forward contracts are entered into to hedge foreign currency denominated monetary assets and liabilities against the short-term effects of currency exchange rate fluctuations. The Company records its derivative contracts that are not designated as hedging instruments at fair value with the related gains or losses recorded in "Other, net" in the Condensed Consolidated Statements of Operations. The gains or losses on these contracts are substantially offset by transaction gains or losses on the underlying balances being hedged. As of April 1, 2012, the Company held option contracts and forward contracts with an aggregate notional value of \$15.0 million and \$25.0 million, respectively, to hedge balance sheet exposure. These forward contracts have maturities of three month or less. As of January 1, 2012, the Company held option and forward contracts with an aggregate notional value of \$63.2 million and \$162.0 million, respectively, to hedge balance sheet exposure.

Credit Risk

The Company's option and forward contracts do not contain any credit-risk-related contingent features. The Company is exposed to credit losses in the event of nonperformance by the counterparties of its option and forward contracts. The Company enters into derivative contracts with high-quality financial institutions and limits the amount of credit exposure to any single counterparty. In addition, the derivative contracts are limited to a time period of less than one year and the Company continuously evaluates the credit standing of its counterparties.

Note 12. INCOME TAXES

In the three months ended April 1, 2012, the Company's income tax provision of \$1.4 million on a loss before income taxes and equity in losses of unconsolidated investees of \$69.7 million was primarily due to projected tax expense in profitable foreign jurisdictions. In the three months ended April 3, 2011, the Company's income tax benefit was \$15.8 million on a loss before income taxes and equity in earnings of unconsolidated investees of \$25.1 million was primarily due to domestic and foreign losses in certain jurisdictions, nondeductible amortization of purchased intangible assets, nondeductible equity compensation, amortization of debt discount from convertible debentures, mark-to-market fair value adjustments, changes in the valuation allowance on deferred tax assets and discrete stock option deductions. The Company determines its interim tax provision using an estimated annual effective tax rate methodology except in jurisdictions where the Company anticipates or has a year-to-date ordinary loss for which no tax benefit can be recognized. In these jurisdictions, tax expense is computed based on an actual or discrete method.

Note 13. NET LOSS PER SHARE OF COMMON STOCK

The Company calculates net income (loss) per share by dividing earnings allocated to common stockholders by the weighted average number of common shares outstanding for the period. The Company's outstanding unvested restricted stock awards are considered participating securities as they may participate in dividends, if declared, even though the awards are not vested. As participating securities, the unvested restricted stock awards are allocated a proportionate share of net income, but excluded from the basic weighted average shares. No allocation is generally made to other participating securities in the case of a net loss per share.

Prior to the November 15, 2011 reclassification, the Company had two classes of outstanding stock, class A and class B common stock. The Company therefore calculated its net income (loss) per share in the first quarter of fiscal 2011 under the two-class method. In applying the two-class method, earnings are allocated to both classes of common stock and other participating securities based on their respective weighted average shares outstanding during the period. Under the two class method, basic weighted average shares was computed using the weighted average of the combined former class A and former class B common stock outstanding. Class A and class B common stock were considered equivalent securities for purposes of the earnings per share calculation because the holders of each class are legally entitled to equal per share distributions whether through dividends or in liquidation.

Diluted weighted average shares is computed using basic weighted average shares plus any potentially dilutive securities outstanding during the period using the if-converted method and treasury-stock-type method, except when their effect is anti-dilutive. Potentially dilutive securities include stock options, restricted stock units, senior convertible debentures, amended warrants associated with the CSO2015, and the Upfront Warrants held by Total. As a result of the net loss from continuing operations for each of the three months ended April 1, 2012 and April 3, 2011 there is no dilutive impact to the net loss per share calculation for the period.

The following table presents the calculation of basic and diluted net loss per share:

(In thousands, except per share amounts)	Three Months Ended	
	April 1, 2012	April 3, 2011
Basic and Diluted net loss per share:		
Numerator: Net loss available to common stockholders	\$ (74,530)	\$ (2,121)
Denominator: Basic and diluted weighted-average common shares	111,785	96,453
Basic and diluted net loss per share	\$ (0.67)	\$ (0.02)

Holders of the Company's 4.75% debentures may convert the debentures into shares of the Company's common stock, at the applicable conversion rate, at any time on or prior to maturity. The 4.75% debentures are included in the calculation of diluted net income per share if their inclusion is dilutive under the if-converted method. During both the three months ended April 1, 2012 and April 3, 2011 there were no dilutive potential common shares under the 4.75% debentures, respectively.

Holders of the Company's 1.25% debentures (prior to their repurchase on February 16, 2012) and 0.75% debentures may, under certain circumstances at their option, convert the debentures into cash and, if applicable, shares of the Company's common stock at the applicable conversion rate, at any time on or prior to maturity. The 1.25% debentures and 0.75% debentures are included in the calculation of diluted net income per share if their inclusion is dilutive under the treasury-stock-type method. The Company's average stock price during both the three months ended April 1, 2012 and April 3, 2011 did not exceed the conversion price for the 1.25% debentures and 0.75% debentures. Under the treasury-stock-type method, the Company's 1.25% debentures and 0.75% debentures will generally have a dilutive impact on net income per share if the Company's average stock price for the period exceeds the conversion price for the debentures.

Holders of the Company's 4.50% debentures may, under certain circumstances at their option, convert the debentures into cash, and not into shares of the Company's common stock (or any other securities). Therefore, the 4.50% debentures are excluded from the net income per share calculation.

Holders of the amended and restated Warrants under the CSO2015, upon exercise of the 4.50% Warrants, may acquire up to 11.1 million shares of the Company's common stock at an exercise price of \$27.03. In the third quarter of fiscal 2011, as a result of the Total Tender Offer, the Company and the counterparties to the 4.50% Warrants agreed to reduce the exercise price of the 4.50% Warrants from \$27.03 to \$24.00 (see Note 10). If the market price per share of the Company's common stock for the period exceeds the established strike price, the 4.50% Warrants will have a dilutive effect on its diluted net income per share using the treasury-stock-type method.

The Upfront Warrants, issued on February 28, 2012, allow Total to acquire up to 9,531,677 shares of the Company's common stock at an exercise price of \$7.8685. If the market price per share of the Company's common stock for the period exceeds the established strike price, the Upfront Warrants will have a dilutive effect on its diluted net income per share using the treasury-stock-type method.

The following is a summary of other outstanding anti-dilutive potential common stock which was excluded from income per diluted share in the following periods:

(In thousands)	As of	
	April 1, 2012 (1)	April 3, 2011 (1)
Stock options	410	1,168
Restricted stock units	4,413	3,488
Warrants (under the CSO2015)	*	*
Upfront Warrants (held by Total)	**	n/a
4.75% debentures	8,712	8,712
1.25% debentures	n/a	*
0.75% debentures	*	*

- (1) As a result of the net loss per share for both the three months ended April 1, 2012 and April 3, 2011, the inclusion of all potentially dilutive stock options, restricted stock units, and common shares under the 4.75% debentures would be anti-dilutive. Therefore, those stock options, restricted stock units and shares were excluded from the computation of the

weighted-average shares for diluted net loss per share for such period.

* The Company's average stock price during the three months ended April 1, 2012 and April 3, 2011 did not exceed the conversion price for the amended warrants (under the CSO2015), 1.25% debentures and 0.75% debentures and those instruments were thus non-dilutive in such periods.

** The Company's stock price as of the last business day of the first quarter of fiscal 2012 did not exceed the exercise price of the Upfront Warrants.

Note 14. STOCK-BASED COMPENSATION

The following table summarizes the consolidated stock-based compensation expense by line item in the Condensed Consolidated Statements of Operations:

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Cost of Americas revenue	\$ 1,129	\$ 604
Cost of EMEA revenue	965	1,192
Cost of APAC revenue	265	125
Research and development	1,780	1,769
Sales, general and administrative	8,402	9,473
Total stock-based compensation expense	<u>\$ 12,541</u>	<u>\$ 13,163</u>

The following table summarizes the consolidated stock-based compensation expense by type of awards:

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Employee stock options	\$ 326	\$ 460
Restricted stock awards and units	13,574	14,826
Change in stock-based compensation capitalized in inventory	(1,359)	(2,123)
Total stock-based compensation expense	<u>\$ 12,541</u>	<u>\$ 13,163</u>

Note 15. SEGMENT INFORMATION

In December 2011, the Company announced a reorganization to align its business and cost structure to a regional focus in order to support the needs of its customers and improve the speed of decision-making processes. As a result, in the first quarter of fiscal 2012, the Company changed its segment reporting from its UPP Segment and R&C Segment to three regional segments: (i) the Americas Segment, (ii) the EMEA Segment, and (iii) the APAC Segment. The Americas Segment includes both North and South America. The EMEA Segment includes European countries, as well as the Middle East and Africa. The APAC segment includes all Asia-Pacific countries. The Company's President and Chief Executive Officer, as the CODM, has organized the Company, manages resource allocations and measures performance of the Company's activities among these three regional segments.

The CODM assesses the performance of the three regional segments using information about their revenue and gross margin after certain adjustments to reflect the substance of the revenue transactions for a utility and power plant project, and adding back certain non-cash expenses such as amortization of other intangible assets, stock-based compensation expense, loss on change in European government incentives, restructuring charges and interest expense. In addition, the CODM assesses the performance of the segments after adding back the results of discontinued operations to revenue and gross margin. The CODM does not review asset information by segment. The following tables present revenue by segment, cost of revenue by segment and gross margin by segment, revenue by geography and revenue by significant customer. Revenue is based on the destination of the shipments. Historical results have been recast under the new segmentation.

Note 16. *SUBSEQUENT EVENTS*

On April 9, 2012, the Company drew down \$125.0 million under the September 2011 Revolving Credit Facility with Credit Agricole. Subsequent to the draw down, the Company has \$275.0 million outstanding under this credit facility.

As a result of the Company continued cost reduction progress at its Fab 2 and its joint venture Fab 3 manufacturing facilities, on April 13, 2012, the Company's Board of Directors approved a restructuring plan to consolidate the Company's Philippine manufacturing operations into Fab 2 and begin repurposing Fab 1 in the second quarter of 2012. In connection with this plan, which is expected to be completed within the next 12 months, the Company expects to record restructuring charges totaling \$51.0 million to \$69.0 million, primarily composed of non-cash asset impairment charges of \$40.0 million to \$54.0 million, and other cash-based associated costs of \$11.0 million to \$15.0 million, for the closure of Fab 1. Of the total restructuring charges of \$51.0 million to \$69.0 million, \$47.0 million to \$63.0 million will likely be recorded in the second quarter of fiscal 2012 and the remainder in ensuing quarters.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statement Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that do not represent historical facts and the assumptions underlying such statements. We use words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "plan," "predict," "potential," "will," "would," "should," and similar expressions to identify forward-looking statements. Forward-looking statements in this Quarterly Report on Form 10-Q include, but are not limited to, our plans and expectations regarding future financial results, expected operating results, business strategies, projected costs and cost reduction, products, ability to monetize utility projects, competitive positions, management's plans and objectives for future operations, the sufficiency of our cash and our liquidity, our ability to obtain financing, the availability of credit and liquidity support from Total S.A. under the Credit Support Agreement and Liquidity Support Agreement, the ability to comply with debt covenants, trends in average selling prices, the success of our joint ventures and acquisitions, expected capital expenditures, warranty matters, outcomes of litigation, our exposure to foreign exchange, interest and credit risk, general business and economic conditions, industry trends, impact of changes in government incentives, expected restructuring charges, and the likelihood of any impairment of project assets, long-lived assets, goodwill, and intangible assets. These forward-looking statements are based on information available to us as of the date of this Quarterly Report on Form 10-Q and current expectations, forecasts and assumptions and involve a number of risks and uncertainties that could cause actual results to differ materially from those anticipated by these forward-looking statements. Such risks and uncertainties include a variety of factors, some of which are beyond our control. Please see "Part II. Item 1A: Risk Factors" herein and our other filings with the Securities and Exchange Commission ("SEC"), including our Annual on Form 10-K for the year ended January 1, 2012 (the "fiscal 2011 Form 10-K") for additional information on risks and uncertainties that could cause actual results to differ. These forward-looking statements should not be relied upon as representing our views as of any subsequent date, and we are under no obligation to, and expressly disclaim any responsibility to, update or alter our forward-looking statements, whether as a result of new information, future events or otherwise.

The following information should be read in conjunction with the Condensed Consolidated Financial Statements and the accompanying Notes to Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q. Our fiscal year ends on the Sunday closest to the end of the applicable calendar year. All references to fiscal periods apply to our fiscal quarter or year which ends on the Sunday closest to the calendar month end.

General Overview

We are a vertically integrated solar products and services company that designs, manufactures, and delivers high-performance solar electric systems worldwide for residential, commercial and utility-scale power plant customers. Of all the solar cells available for the mass market, we believe our solar cells have the highest conversion efficiency, a measurement of the amount of sunlight converted by the solar cell into electricity.

We believe our solar cells provide the following benefits compared with conventional solar cells:

- superior performance, including the ability to generate up to 50% more power per unit area than conventional solar cells;
- superior aesthetics, with our uniformly black surface design that eliminates highly visible reflective grid lines and metal interconnect ribbons;
- more KW per pound can be transported using less packaging, resulting in lower distribution costs; and
- more efficient use of silicon, a key raw material used in the manufacture of solar cells.

The high efficiency and superior aesthetics of our solar power products provide compelling customer benefits. In many situations, we offer a significantly lower area-related cost structure for our customers because our solar panels require a substantially smaller roof or land area than conventional solar technology and half or less of the roof or land area of many commercial solar thin film technologies.

We believe our solar power systems provide the following benefits compared with various competitors' systems:

[Table of Contents](#)

- channel breadth and flexible delivery capability, including turn-key systems;
- high performance delivered by enhancing energy delivery and financial return through systems technology design; and
- cutting edge systems design to meet customer needs and reduce cost, including non-penetrating, fast roof installation technologies.

Business Segments Overview

In December 2011, we announced a reorganization to align our business and cost structure to a regional focus in order to support the needs of our customers and improve the speed of decision-making processes. As a result, in the first quarter of fiscal 2012, we changed our segment reporting from our Utility and Power Plants ("UPP") Segment and Residential and Commercial ("R&C") Segment to three regional segments: (i) the Americas Segment, (ii) the EMEA Segment, and (iii) the APAC Segment. The Americas segment includes both North and South America. The EMEA segment includes European countries, as well as the Middle East and Africa. The APAC segment includes all Asia-Pacific countries. Our President and Chief Executive Officer, as the chief operating decision maker ("CODM"), has organized our Company, manages resource allocations and measures performance of our Company's activities among these three regional segments.

Seasonal Trends

Our business is subject to industry-specific seasonal fluctuations. Sales have historically reflected these seasonal trends with the largest percentage of total revenues realized during the last two calendar quarters of a fiscal year. Lower seasonal demand normally results in reduced shipments and revenues in the first two calendar quarters of a fiscal year. There are various reasons for this seasonality, mostly related to economic incentives and weather patterns. For example, in European countries with feed-in tariffs, the construction of solar power systems may be concentrated during the second half of the calendar year, largely due to the fact that the coldest winter months in the Northern Hemisphere are January through March. In the United States, customers will sometimes make purchasing decisions towards the end of the year in order to take advantage of tax credits or for other budgetary reasons. In addition, sales in the new home development market are often tied to construction market demands which tend to follow national trends in construction, including declining sales during cold weather months.

Unit of Power

When referring to our facilities' manufacturing capacity, total sales and components sales, the unit of electricity in watts for kilowatts ("KW"), megawatts ("MW") and gigawatts ("GW") is direct current ("dc"). When referring to our solar power systems, the unit of electricity in watts for KW, MW, and GW is alternating current ("ac").

Levelized Cost of Energy ("LCOE")

The LCOE equation is an evaluation of the life-cycle energy cost and life-cycle energy production of an energy producing system. It allows alternative technologies to be compared when different scales of operation, investment, or operating time periods exist. It captures capital costs and ongoing system-related costs, along with the amount of electricity produced, and converts them into a common metric. Key drivers for LCOE reduction for photovoltaic products include panel efficiency, capacity factors, reliable system performance, and the life of the system.

Fiscal Years

We report on a fiscal-year basis and end our quarters on the Sunday closest to the end of the applicable calendar quarter, except in a 53-week fiscal year, in which case the additional week falls into the fourth quarter of that fiscal year. Both fiscal year 2011 and 2010 consist of 52 weeks. The first quarter of fiscal 2012 ended on April 1, 2012 and the first quarter of fiscal 2011 ended on April 3, 2011.

2012 Outlook

During fiscal 2011 we saw a decline in overall demand for solar systems primarily in Europe as a result of the decline in European government incentives. The resulting supply environment drove down average selling prices across all product and service lines. Such pricing pressures are expected to generally continue throughout fiscal 2012.

In 2012 we continue to be focused on reducing the cost of our solar panels and systems. We expect our R&D activities to increase as we emphasize continued improvement of our solar cell efficiency and LCOE performance through enhancement

of our existing products, development of new products and reduction of manufacturing cost and complexity in conjunction with our overall cost-control strategies. In addition, we continue to ramp up our assembly facility in Mexicali, Mexico as part of our cost reduction roadmap. We are further working with our suppliers and partners along all steps of the value chain to reduce costs by improving manufacturing technologies and expanding economies of scale.

We plan to continue to expand our business in growing and sustainable markets. In fiscal 2011 we launched our residential lease program with our dealers in the United States, in partnership with a third-party financial institution, which allows customers to obtain SunPower systems under lease agreements up to 20 years, subject to financing availability. We announced the first commercial deployment of our SunPower® C-7 Tracker technology under a power purchase agreement ("PPA") and commenced commercial production of our next generation solar cell with demonstrated efficiencies of up to 24%. Our acquisition of Tenesol S.A. ("Tenesol") in the first quarter of fiscal 2012 has further expanded our European and global customer channels as well as added a strong manufacturing capability based in both Europe and Africa.

Results of Operations

Revenue

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Americas	\$ 281,493	\$ 203,910
EMEA	156,110	200,501
APAC	56,528	47,007
Total revenue	\$ 494,131	\$ 451,418

Total Revenue: During the three months ended April 1, 2012 and April 3, 2011, our total revenue was \$494.1 million and \$451.4 million, respectively, an increase of 9% period over period. The increase in total revenue during the three months ended April 1, 2012, compared to the same period in fiscal 2011 was primarily attributable to revenue from the development of several large scale projects in North America. In the first quarter of fiscal 2012 and the first quarter of 2011, we recognized revenue on 195.7 MW and 132.8 MW, respectively, of solar power products sold through our three regional segments. The increase in our total revenue was partially offset by declining average selling prices and changes in the mix of our solar power products.

Sales outside the Americas Segment represented approximately 43% and 55% of total revenue for the three months ended April 1, 2012 and April 3, 2011, respectively. The shift in revenue by geography in the three months ended April 1, 2012 as compared to the three months ended April 3, 2011 was due to increasing demand in the United States for our solar power products as a result of additional federal and state initiatives supporting attractive solar incentives within the residential, commercial, and utility sectors as well as a slowdown in project development and component shipments in Europe due to changes in government incentives.

Concentrations: The table below represents our significant customers which accounted for greater than 10% of total revenue in the three months ended April 1, 2012 and April 3, 2011. We entered into a project contract with NRG Solar, Inc. in fiscal 2011, which is anticipated to account for 10% or more of total revenue in fiscal 2012.

Revenue	Business Segment	Three Months Ended	
		April 1, 2012	April 3, 2011
Significant Customer:			
NRG Solar, Inc.	Americas	23%	*
Customer B	Americas	*	11%

* denotes less than 10% during the period

Americas Revenue: Americas revenue for the three months ended April 1, 2012 and April 3, 2011 was \$281.5 million, and \$203.9 million, respectively, which accounted for 57% and 45%, respectively, of total revenue. Americas revenue for the three months ended April 1, 2012 increased 38% as compared to the three months ended April 3, 2011 primarily due to the

ramp up in construction of the 250 MW California Solar Valley Ranch ("CVSR") project located in San Luis Obispo County, California. The increase in Americas revenue is additionally attributable to growing demand for our solar power products in the residential and commercial markets, specifically in rooftop and ground-mounted commercial projects in North America, particularly in the United States, due to federal state and local initiatives supporting solar power projects. Our Americas Segment recognized revenue on 94.7 MW in the three months ended April 1, 2012 as compared to 54.9 MW in the three months ended April 3, 2011.

EMEA Revenue: EMEA revenue for the three months ended April 1, 2012 and April 3, 2011 was \$156.1 million and \$200.5 million, respectively, or 32% and 44%, respectively, of total revenue. EMEA revenue for the three months ended April 1, 2012 decreased 22% as compared to the three months ended April 3, 2011 primarily due to changes in European government incentives which had a materially negative effect on the market for solar systems, particularly large-scale solar products and systems in Europe, and caused our earnings related to such projects to decline in Europe. The overall slowdown in EMEA project development was coupled with lower component shipments quarter over quarter. The decline in overall EMEA revenue was partially offset by \$35.1 million in revenue due to Tenesol's results of operations being incorporated into our financial results for the three months ended April 1, 2012.

APAC Revenue: APAC revenue for the three months ended April 1, 2012 and April 3, 2011 was \$56.5 million and \$47.0 million, respectively, or 11% and 10%, respectively, of total revenue. APAC revenue for the three months ended April 1, 2012 increased 20% as compared to the three months ended April 3, 2011 primarily due to additional component sales and shipments, primarily in Japan.

Cost of Revenue

Details of cost of revenue by segment are as follows:

(Dollars in thousands)	Three Months Ended							
	Americas		EMEA		APAC		Consolidated	
	April 1, 2012	April 3, 2011	April 1, 2012	April 3, 2011	April 1, 2012	April 3, 2011	April 1, 2012	April 3, 2011
Amortization of other intangible assets	\$ 41	\$ 274	\$ 808	\$ 21	\$ —	\$ —	\$ 849	\$ 295

Total cost of revenue	\$ 242,119	\$ 172,882	\$ 156,845	\$ 156,709	\$ 49,919	\$ 33,305	\$ 448,883	\$ 362,896
Total cost of revenue as a percentage of revenue	86%	85%	100%	78%	88%	71%	91%	80%
Total gross margin percentage	14%	15%	—%	22%	12%	29%	9%	20%

Total Cost of Revenue: Our cost of revenue will fluctuate from period to period due to the mix of projects completed and recognized as revenue, in particular between large utility projects and large commercial installation projects. The cost of solar panels is the single largest cost element in our cost of revenue. Other cost of revenue associated with the construction of solar power systems includes real estate, mounting systems, inverters, third-party contract manufacturer costs, construction subcontract and dealer costs. In addition, other factors contributing to cost of revenue include amortization of other intangible

assets, stock-based compensation, depreciation, provisions for estimated warranty claims, salaries, personnel-related costs, freight, royalties, facilities expenses and manufacturing supplies associated with contracting revenue and solar cell fabrication, as well as factory pre-operating costs associated with our manufacturing facilities.

During the three months ended April 1, 2012 and April 3, 2011 total cost of revenue was \$448.9 million and \$362.9 million, respectively, which represents an increase of 24% period over period. The increase in total cost of revenue is primarily due to a 47% increase in total MW of solar power products sold. Additionally contributing to the increase in total cost is \$9.0 million of charges related to the write-down of third-party inventory resulting from the current supply environment and decline in average selling prices. The increase in total cost of revenue is partially offset by lower material costs, higher yields and better factory utilization at our manufacturing facilities and AUOSP joint venture.

Americas Gross Margin: Gross margin for our Americas Segment was \$39.4 million and \$31.0 million for the three months ended April 1, 2012 and April 3, 2011, respectively, or 14% and 15%, respectively. The decrease in Americas gross margin in the three months ended April 1, 2012 as compared to the three months ended April 3, 2011 is primarily due to mix of project costs coupled with industry wide declines in average selling prices.

EMEA Gross Margin: Gross margin for our EMEA Segment was negative \$0.7 million and \$43.8 million for the three months ended April 1, 2012 and April 3, 2011, respectively, or zero and 22%, respectively. The decrease in EMEA gross margin in the three months ended April 1, 2012 as compared to the three months ended April 3, 2011 is primarily due to declines in European government incentives in fiscal 2011, general financing constraints experienced in the European economy, changes in market demand within the region and the over-supply environment that significantly drove down average selling prices.

APAC Gross Margin: Gross margin for our for our APAC Segment was \$6.6 million and \$13.7 million for the three months ended April 1, 2012 and April 3, 2011, respectively, or 12% and 29%, respectively, of APAC revenue. The decrease in APAC gross margin in the three months ended April 1, 2012 as compared to the three months ended April 3, 2011 is primarily due to declining average selling prices.

Research and Development ("R&D")

(Dollars in thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Stock-based compensation	\$ 1,780	\$ 1,769
Non-cash interest expense	3	—
Other R&D	14,943	11,877
Total R&D	\$ 16,726	\$ 13,646
As a percentage of revenue	3%	3%

In the three months ended April 1, 2012 and April 3, 2011, R&D expense was \$16.7 million and \$13.6 million, respectively, which represents an increase of 23% period over period. The overall increase in our investment in R&D period over period resulted primarily from costs related to the improvement of our current generation solar cell manufacturing technology, development of our next generation of solar cells, solar panels, trackers and rooftop systems, and development of systems performance monitoring products.

Sales, General and Administrative ("SG&A")

(Dollars in thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Amortization of other intangible assets	\$ 1,933	\$ 6,769
Stock-based compensation	8,402	9,473
Acquisition and integration costs	1,148	—
Amortization of promissory notes	—	1,290
Non-cash interest expense	23	—
Other SG&A	64,688	58,647
Total SG&A	\$ 76,194	\$ 76,179
As a percentage of revenue	15%	17%

During the three months ended April 1, 2012 and April 3, 2011, SG&A expense totaled \$76.2 million in both periods. SG&A expense as a percentage of revenue decreased 2% period over period and was primarily driven by our cost-control strategy implemented in response to the changes in the European market and the resulting restructuring, including the overall reduction of consulting charges in Europe and the United States. The above decrease was partially offset by the addition of approximately \$12.0 million of Tenesol's operating expenses being incorporated into our financial results for the three months ended April 1, 2012.

Restructuring Charges

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
December 2011 Plan	\$ 2,924	\$ —
June 2011 Plan	122	—
Restructuring charges	\$ 3,046	\$ —
As a percentage of revenue	1%	—%

December 2011 Plan: To accelerate operating cost reduction and improve overall operating efficiency, in December 2011, we implemented a company-wide restructuring program (the "December 2011 Plan"). The December 2011 Plan eliminated 2% of SunPower's global workforce. We expect to record restructuring charges up to \$17.0 million, related to all segments, in the twelve months following the approval and implementation of the plan of which greater than 80% of these charges is expected to be cash. The cumulative amount of restructuring charges incurred in connection with the December 2011 Plan to date total \$10.4 million and consist of \$8.3 million employee severance and benefits, and accelerated vesting of restricted stock units previously granted, \$1.8 million of lease and related termination costs, and \$0.3 million of legal and other related charges. Restructuring charges recognized in connection with the December 2011 Plan recognized during the three months ended April 1, 2012 in our Condensed Consolidated Statements of Operations consisted of \$1.0 million of employee severance and benefits, \$1.8 million of lease and related termination costs, and \$0.1 million of legal and other related charges.

June 2011 Plan: In response to reductions in European government incentives, which have had a significant impact on the global solar market, on June 13, 2011, our Board of Directors approved a restructuring plan (the "June 2011 Plan") to realign our resources. The June 2011 Plan eliminated 2% of our global workforce, in addition to the consolidation or closure of certain facilities in Europe. The cumulative amount of restructuring charges incurred in connection with the June 2011 Plan to date total \$14.0 million and consist of \$11.1 million of employee severance, benefits and accelerated vesting of promissory notes, \$0.7 million of lease and related termination costs, and \$2.3 million of legal and other related charges. Restructuring charges recognized in connection with the June 2011 Plan recognized during the three months ended April 1, 2012 totaled \$0.1 million in our Condensed Consolidated Statements of Operations which primarily consisted of legal and other related charges. Restructuring activities associated with the June 2011 Plan were substantially completed as of April 1, 2012.

Other Income (Expense), Net

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Interest income	\$ 342	\$ 743
Non-cash interest expense	(6,614)	(6,291)
Other interest expense	(12,087)	(8,968)
Total interest expense	(18,701)	(15,259)
Gain (loss) on mark-to-market derivatives	13	(44)
Other, net	(685)	(9,207)
Other expense, net	\$ (19,031)	\$ (23,767)

Interest expense during the three months ended April 1, 2012 and April 3, 2011 primarily related to debt under our senior convertible debentures, fees for our outstanding letters of credit with Deutsche Bank AG New York Branch ("Deutsche Bank") and Deutsche Bank Trust Company, the mortgage loan with International Finance Corporation ("IFC"), debt under the loan agreement with California Enterprise Development Authority ("CEDA"), and debt under the revolving credit facilities with Union Bank, N.A. ("Union Bank"), Société Générale, Milan Branch ("Société Générale") and Credit Agricole Corporate and Investment Bank ("Credit Agricole"), and amortization of debt issuance costs related to warrants issued in connection with the Liquidity Support Agreement executed on February 28, 2012 (see Note 10). The increase in interest expense of 23% during the three months ended April 1, 2012 compared to the three months ended April 3, 2011 was due to (i) additional outstanding borrowings under our IFC mortgage loan agreement due to an additional \$25.0 million draw down in June 2011, and (ii) the \$150.0 million of outstanding borrowing under our Credit Agricole credit facility established in September 2011. These increases were partially offset by repayment and termination of our €75.0 million Société Générale and \$50.0 million Union Bank credit facilities in September 2011 in connection with the establishment of the \$275.0 million revolving credit agreement with Credit Agricole.

The following table summarizes the components of Other, net:

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Loss on derivatives and foreign exchange	\$ (1,129)	\$ (9,353)
Gain on sale of investments	—	128
Other income (expense), net	444	18
Total other, net	\$ (685)	\$ (9,207)

Other, net expenses during the three months ended April 1, 2012 and April 3, 2011 was comprised of net expenses and losses totaling \$0.7 million and \$9.2 million, respectively, consisting primarily of (i) losses totaling \$0.5 million and \$8.3 million, respectively, from expensing the time value of option contracts and forward points on forward exchange contracts of effective cash flow hedges; (ii) net losses totaling \$0.6 million and \$1.1 million, respectively, on foreign currency derivatives and foreign exchange largely due to the volatility in the currency markets. We have an active hedging program designed to reduce our exposure to movements in foreign currency exchange rates. As a part of this program, we designate certain derivative transactions as effective cash flow hedges of anticipated foreign currency revenues and record the effective portion of changes in the fair value of such transactions in "Accumulated other comprehensive income" in our Condensed Consolidated Balance Sheets until the anticipated revenues have occurred, at which point the associated income or loss would be recognized in revenue. During the three months ended April 3, 2011, in connection with the decline in forecasted revenue, we reclassified a net loss of \$3.9 million held in "Accumulated other comprehensive income" for certain previously anticipated transactions which did not occur, and are included in the net impact on foreign currency derivatives and foreign exchange for the three months ended April 3, 2011 described above.

Income Taxes

(Dollars in thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Benefit from (provision for) income taxes	\$ (1,356)	\$ 15,816
As a percentage of revenue	—%	4%

In the three months ended April 1, 2012, our income tax provision of \$1.4 million on a loss before income taxes and equity in losses of unconsolidated investees of \$69.7 million was primarily due to projected tax expense in profitable foreign jurisdictions. In the three months ended April 3, 2011, our income tax benefit was \$15.8 million on a loss before income taxes and equity in earnings of unconsolidated investees of \$25.1 million was primarily due to domestic and foreign losses in certain jurisdictions, nondeductible amortization of purchased intangible assets, nondeductible equity compensation, amortization of debt discount from convertible debentures, mark-to-market fair value adjustments, changes in the valuation allowance on deferred tax assets and discrete stock option deductions.

A significant amount of our total revenue is generated from customers located outside of the United States, and a substantial portion of our assets and employees are located outside of the United States. United States income taxes and foreign withholding taxes have not been provided on the undistributed earnings of our non-United States subsidiaries as such earnings are intended to be indefinitely reinvested in operations outside the United States to extent that such earnings have not been currently or previously subjected to taxation of the United States.

We record a valuation allowance to reduce our United States deferred tax assets to the amount that is more likely than not to be realized. In assessing the need for a valuation allowance, we consider historical levels of income, expectations and risks associated with the estimates of future taxable income and ongoing prudent and feasible tax planning strategies. In the event we determine that we would be able to realize additional deferred tax assets in the future in excess of the net recorded amount, or if we subsequently determine that realization of an amount previously recorded is unlikely, we would record an adjustment to the deferred tax asset valuation allowance, which would change income tax in the period of adjustment. As of April 1, 2012, we believe there is insufficient evidence to realize additional deferred tax assets in fiscal 2012.

Equity in Earnings of Unconsolidated Investees

(Dollars in thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Equity in earnings (loss) of unconsolidated investees	\$ (3,425)	\$ 7,133
As a percentage of revenue	1%	2%

In the three months ended April 1, 2012 and April 3, 2011, our equity in earnings of unconsolidated investees was net losses of \$3.4 million and net earnings of \$7.1 million, respectively. Our share of Woongjin Energy's income totaled zero and \$4.5 million in the three months ended April 1, 2012 and April 3, 2011, respectively. The change in our equity share of Woongjin Energy's earnings period over period is attributable to the sale of our equity ownership during fiscal 2011 and the first quarter of fiscal 2012. As of April 1, 2012, we no longer held any equity ownership in Woongjin Energy. Our share of First Philec Solar Corporation's ("First Philec Solar") income in the three months ended April 1, 2012 and April 3, 2011 totaled zero and \$0.5 million, respectively. Our share of AUOSP's loss in the three months ended April 1, 2012 totaled \$3.4 million and our share of AUOSP's earnings in the three months ended April 3, 2011 totaled \$2.2 million.

Liquidity and Capital Resources

Cash Flows

A summary of the sources and uses of cash and cash equivalents is as follows:

(In thousands)	Three Months Ended	
	April 1, 2012	April 3, 2011
Net cash used in operating activities	\$ (136,629)	\$ (174,659)
Net cash provided by (used in) investing activities	28,981	(68,976)
Net cash provided by (used in) financing activities	(317,686)	81

Operating Activities

Net cash used in operating activities of \$136.6 million in the three months ended April 1, 2012 was primarily the result of: (i) a net loss of \$74.5 million; (ii) increase in inventories and project assets of \$113.2 million for construction of future and

Table of Contents

current projects primarily in North America; (iii) increases in prepaid expense and other assets of \$96.2 million primarily related to deferred costs associated with the construction of the 250 MW California Solar Valley Ranch project as well as deferred costs associated with the build of systems under our residential leasing program; and (iv) an increase in advance to suppliers of \$15.7 million. Net cash used in operating activities was partially offset by (i) a decrease in accounts receivable \$87.7 million; (ii) non-cash impairment changes of \$9.0 million related to the write-down of third party inventory; (iii) other non-cash charges of \$53.6 million primarily related to depreciation and amortization, stock based compensation, and non-cash interest charges; and (iv) an increase of \$12.7 million in other operating liabilities, net of changes to operating assets.

Net cash used in operating activities of \$174.7 million in the three months ended April 3, 2011 was primarily the result of: (i) a net loss of \$2.1 million; (ii) increases in inventories and project assets of \$163.2 million and \$27.6 million, respectively, for construction of future and current projects in Italy and the North America; (iii) increases in costs and estimated earnings in excess of billings of \$40.6 million related to contractual timing of system project billings; (iv) decreases in accounts payable and other accrued liabilities of \$26.4 million; as well as (v) other changes in operating assets and liabilities of \$34.6 million, partially offset by a decrease in accounts receivable of \$52.3 million and an increase in billings in excess of costs and estimated earnings of \$21.3 million. In addition, net cash used in operating activities resulted from a \$2.1 million net loss including \$7.1 million of non-cash income related to our equity share in earnings of joint ventures, offset by \$53.5 million of non-cash charges primarily related to depreciation, amortization, stock compensation and non-cash interest expense.

Investing Activities

Net cash provided by investing activities in the three months ended April 1, 2012 was \$29.0 million, which included (i) \$43.9 million of restricted cash released back to us due to expirations of fully cash-collateralized letter of credits under the September 2011 Letter of Credit Facility with Deutsche Bank Trust and transition of outstanding letter of credits into the August 2011 Deutsche Bank facility under which payment of obligations is guaranteed by Total S.A.; (ii) \$17.4 million in proceeds from the sale of our equity interest in our Woongjin Energy joint venture on the open market; and (iii) \$0.4 million in proceeds from the sale of equipment to a third-party. Cash provided by investing activities was partially offset by \$32.8 million related to capital expenditures primarily associated with improvements to our current generation solar cell manufacturing technology, leasehold improvements associated with our San Jose, California office, and the build out of our new solar panel assembly facility in Mexicali, Mexico, and other projects.

Net cash used in investing activities in the three months ended April 3, 2011 was \$69.0 million, of which: (i) \$44.8 million related to capital expenditures primarily associated with improvements to our current generation solar cell manufacturing technology, a solar power system built to own, leasehold improvements associated with new offices leased in San Jose, California, and other projects; (ii) \$20.0 million related to additional cash investments in our AUOSP joint venture; and (iii) \$4.7 million related to an increase in restricted cash. Cash used in investing activities was partially offset by \$0.5 million related to proceeds from the sale of manufacturing equipment and money market fund distributions.

Financing Activities

Net cash used in financing activities in the three months ended April 1, 2012 of \$317.7 million reflects: (i) \$178.3 million of cash distributions in connection with the transfer of entities under common control; (ii) \$198.6 million paid to fully repurchase the outstanding 1.25% convertible debentures; (iii) repayment of \$100.6 million of our outstanding balance under the Credit Agricole revolving credit facility and capital lease obligations; and (iv) \$3.9 million in purchases of stock for tax withholding obligations on vested restricted stock. Cash used in financing activities was partially offset by \$163.7 million in proceeds from the sale of 18.6 million shares of our common stock to Total.

Net cash provided by financing activities in the three months ended April 3, 2011 was \$0.1 million and results from: (i) \$164.2 million in cash proceeds from subsequent drawdowns under the Union Bank and Société Générale revolving credit facilities in March 2011; and (ii) \$0.1 million from stock option exercises. Cash provided by financing activities in the three months ended April 3, 2011 was partially offset by: (i) \$156.1 million repayment on outstanding balances under the Union Bank and Société Générale revolving credit facilities in January 2011; and (ii) \$8.1 million in purchases of stock for tax withholding obligations on vested restricted stock.

Debt and Credit Sources

Convertible Debentures

As of both April 1, 2012 and January 1, 2012, an aggregate principal amount of \$250.0 million of the 4.50% debentures remain issued and outstanding. Interest on the 4.50% debentures is payable on March 15 and September 15 of each year. The

4.50% debentures mature on March 15, 2015. The 4.50% debentures are convertible only into cash, and not into shares of our common stock (or any other securities). Prior to December 15, 2014, the 4.50% debentures are convertible only upon specified events and, thereafter, they will be convertible at any time, based on an initial conversion price of \$22.53 per share of our common stock. The conversion price will be subject to adjustment in certain events, such as distributions of dividends or stock splits. Upon conversion, we will deliver an amount of cash calculated by reference to the price of our common stock over the applicable observation period. We may not redeem the 4.50% debentures prior to maturity. Holders may also require us to repurchase all or a portion of their 4.50% debentures upon a fundamental change, as defined in the debenture agreement, at a cash repurchase price equal to 100% of the principal amount plus accrued and unpaid interest. In the event of certain events of default, such as our failure to make certain payments or perform or observe certain obligations thereunder, Wells Fargo, the trustee, or holders of a specified amount of then-outstanding 4.50% debentures will have the right to declare all amounts then outstanding due and payable. Concurrent with the issuance of the 4.50% debentures, we entered into privately negotiated convertible debenture hedge transactions and warrant transactions which represent a call spread overlay with respect to the 4.50% debentures (the "CSO2015"), assuming full performance of the counterparties and 4.50% Warrants strike prices in excess of the conversion price of the 4.50% debentures. According to the counterparties to the warrants, the consummation of the Total Tender Offer triggered their rights to make a downward adjustment to the strike price of the warrants. In the third quarter of fiscal 2011, we and the counterparties to the 4.50% Warrants agreed to reduce the exercise price of the 4.50% Warrants from \$27.03 to \$24.00. Please see *"Conversion of our outstanding 4.75% debentures, our warrants related to our outstanding 4.50% and 4.75% debentures, and future substantial issuances or dispositions of our common stock or other securities, could dilute ownership and earnings per share or cause the market price of our stock to decrease."* in "Part I. Item 1A: Risk Factors" in the fiscal 2011 Form 10-K.

As of both April 1, 2012 and January 1, 2012, an aggregate principal amount of \$230.0 million of the 4.75% senior convertible debentures ("4.75% debentures") remain issued and outstanding. Interest on the 4.75% debentures is payable on April 15 and October 15 of each year. Holders of the 4.75% debentures are able to exercise their right to convert the debentures at any time into shares of our common stock at a conversion price equal to \$26.40 per share. The applicable conversion rate may adjust in certain circumstances, including upon a fundamental change, as defined in the indenture governing the 4.75% debentures. If not earlier converted, the 4.75% debentures mature on April 15, 2014. Holders may also require us to repurchase all or a portion of their 4.75% debentures upon a fundamental change at a cash repurchase price equal to 100% of the principal amount plus accrued and unpaid interest. In the event of certain events of default, such as our failure to make certain payments or perform or observe certain obligations thereunder, Wells Fargo, the trustee, or holders of a specified amount of then-outstanding 4.75% debentures will have the right to declare all amounts then outstanding due and payable. Concurrent with the issuance of the 4.75% debentures, we entered into certain convertible debenture hedge transactions (the "4.75% Bond Hedge") and warrant transactions (the "4.75% Warrants") with affiliates of certain of the underwriters of the 4.75% debentures. According to the counterparties to the warrants, the consummation of the Total Tender Offer triggered their rights to make a downward adjustment to the strike price of the warrants. In the third quarter of fiscal 2011, we and the counterparties to the 4.75% Warrants agreed to reduce the exercise price of the 4.75% Warrants from \$38.50 to \$26.40, which is no longer above the conversion price of the 4.75% debentures. Please see *"Conversion of our outstanding 4.75% debentures, our warrants related to our outstanding 4.50% and 4.75% debentures, and future substantial issuances or dispositions of our common stock or other securities, could dilute ownership and earnings per share or cause the market price of our stock to decrease."* in "Part I. Item 1A: Risk Factors" in the fiscal 2011 Form 10-K.

Mortgage Loan Agreement with IFC

On May 6, 2010, our subsidiaries SPML and SPML Land, Inc. ("SPML Land") entered into a mortgage loan agreement with IFC. Under the loan agreement, SPML may borrow up to \$75.0 million during the first two years, and SPML shall repay the amount borrowed, starting 2 years after the date of borrowing, in 10 equal semiannual installments over the following 5 years. SPML shall pay interest of LIBOR plus 3% per annum on outstanding borrowings, and a front-end fee of 1% on the principal amount of borrowings at the time of borrowing, and a commitment fee of 0.5% per annum on funds available for borrowing and not borrowed. SPML may prepay all or a part of the outstanding principal, subject to a 1% prepayment premium. As of both April 1, 2012 and January 1, 2012, SPML had \$75.0 million, outstanding under the mortgage loan agreement. SPML and SPML Land pledged certain assets as collateral supporting SPML's repayment obligation. Additionally, in accordance with the terms of the mortgage loan agreement, we are required to establish a debt service reserve account which shall contain the amount, as determined by IFC, equal to the aggregate principal and interest due on the next succeeding interest payment date after such date. As of April 1, 2012 and January 1, 2012, we had restricted cash and cash equivalents of \$1.4 million and \$1.3 million, respectively, related to the IFC debt service reserve.

Loan Agreement with California Enterprise Development Authority ("CEDA")

On December 29, 2010, we borrowed from CEDA the proceeds of the \$30.0 million aggregate principal amount of

CEDA's tax-exempt Recovery Zone Facility Revenue Bonds (SunPower Corporation - Headquarters Project) Series 2010 (the "Bonds") maturing April 1, 2031 under a loan agreement with CEDA. Certain of our obligations under the loan agreement were contained in a promissory note dated December 29, 2010 issued by us to CEDA, which assigned the promissory note, along with all right, title and interest in the loan agreement, to Wells Fargo, as trustee, with respect to the Bonds for the benefit of the holders of the Bonds. The Bonds initially bore interest at a variable interest rate (determined weekly), but at our option were converted into fixed-rate bonds at 8.50% per annum (which include covenants of, and other restrictions on, us). Additionally, in accordance with the terms of the loan agreement, we are required to keep all loan proceeds on deposit with Wells Fargo, the trustee, until funds are withdrawn by us for use in relation to the design and leasehold improvements of our new corporate headquarters in San Jose, California. As of April 1, 2012 and January 1, 2012, we had restricted cash and cash equivalents of \$5.8 million and \$10.0 million, respectively, for design and leasehold improvements and debt service reserves under the CEDA loan agreement.

As of both April 1, 2012 and January 1, 2012, the \$30.0 million aggregate principal amount of the Bonds was classified as "Long-term debt" in our Condensed Consolidated Balance Sheets.

August 2011 Letter of Credit Facility with Deutsche Bank

On August 9, 2011, we entered into a letter of credit facility agreement with Deutsche Bank, as issuing bank and as administrative agent, and certain financial institutions, and further amended on December 20, 2011. Payment of obligations under the letter of credit facility is guaranteed by Total S.A. pursuant to the Credit Support Agreement between us and Total S.A. The letter of credit facility provides for the issuance, upon our request, of letters of credit by the issuing banks thereunder in order to support certain of our obligations, in an aggregate amount not to exceed (a) \$725.0 million until December 31, 2012; and (b) \$771.0 million for the period from January 1, 2013 through December 31, 2013. Aggregate letter of credit amounts may be increased upon the agreement of the parties, but otherwise may not exceed (i) \$878.0 million for the period from January 1, 2014 through December 31, 2014; (ii) \$936.0 million for the period from January 1, 2015 through December 31, 2015; and (iii) \$1.0 billion for the period from January 1, 2016 through June 28, 2016.

Each letter of credit issued under the letter of credit facility must have an expiration date no later than the second anniversary of the issuance of that letter of credit, provided that up to 15% of the outstanding value of the letters of credit may have an expiration date of between two and three years from the date of issuance.

As of April 1, 2012, letters of credit issued under the August 2011 letter of credit facility with Deutsche Bank totaled \$708.5 million.

September 2011 Letter of Credit Facility with Deutsche Bank and Deutsche Bank Trust Company Americas (together, "Deutsche Bank Trust")

On September 27, 2011, we entered into a letter of credit facility with Deutsche Bank Trust which provides for the issuance, upon request by us, letters of credit to support our obligations in an aggregate amount not to exceed \$200.0 million. Each letter of credit issued under the facility is fully cash-collateralized and we have entered into a security agreement with Deutsche Bank Trust, granting them a security interest in a cash collateral account established for this purpose.

As of April 1, 2012 letters of credit issued under the Deutsche Bank Trust facility amounted to \$4.4 million which were fully collateralized with restricted cash on the Consolidated Balance Sheets.

September 2011 Revolving Credit Facility with Credit Agricole

On September 27, 2011, we entered into a revolving credit agreement with Credit Agricole, as administrative agent, and certain financial institutions, under which we may borrow up to \$275.0 million until September 27, 2013. Amounts borrowed may be repaid and reborrowed until September 27, 2013.

We are required to pay interest on outstanding borrowings of: (a) with respect of any LIBOR loan, 1.5% plus the LIBOR divided by a percentage equal to one minus the stated maximum rate of all reserves required to be maintained against "Eurocurrency liabilities" as specified in Regulation D; (b) with respect to any alternative base loan, 0.5% plus the greater of (1) the prime rate, (2) the Federal Funds rate plus 0.5%, and (3) the one month LIBOR plus 1%; (c) a commitment fee equal to 0.25% per annum on funds available for borrowing and not borrowed; (d) an upfront fee of 0.125% of the revolving loan commitment; and (e) arrangement fee customary for a transaction of this type.

In the event Total S.A. no longer beneficially owns 40% of our issued and outstanding voting securities, the revolving

credit facility would be subject to renegotiation, with a view to agreeing to amend the revolving credit facility consistent with terms and conditions and market practice for similarly situated borrowers. If we cannot reach an agreement with the lenders, we are required to prepay all principal, interest, fees, and other amounts owed and the revolving credit facility will terminate.

Our revolving credit facility with Credit Agricole requires that we maintain certain financial ratios, including that the ratio of our debt at the end of each quarter to our EBITDA (earnings before interest, tax, depreciation, and amortization) for the last twelve months, as defined, would not exceed 4.5 to 1. If our forecasts are not achieved as anticipated, it is possible that we could breach this or other covenants in the future, which could affect the availability of borrowings under the line and potentially result in cross defaults on other agreements, such as our convertible notes, if not remedied. On February 28, 2012, as further described below, we entered into the Liquidity Support Facility with Total S.A. under which we may receive up to \$600 million of liquidity support. Under this facility, Total S.A. must provide us and we must accept from Total S.A. additional liquidity in the form of guarantees, revolving or convertible debt, equity, or other forms of liquidity support agreed to by us, in the event that either our actual or projected unrestricted cash, cash equivalents and unused borrowing capacity are reduced below \$100 million, or we fail to satisfy any financial covenant under our indebtedness, including the revolving facility with Credit Agricole.

As of April 1, 2012 and January 1, 2012, we had \$150.0 million and \$250.0 million, respectively, outstanding under the revolving credit facility with Credit Agricole which is classified as "Long term debt" on our Consolidated Balance Sheets. On April 9, 2012, we drew down \$125.0 million under the revolving credit facility with Credit Agricole. Subsequent to the draw down, we have \$275.0 million outstanding under this credit facility.

Liquidity

As of April 1, 2012, we had unrestricted cash and cash equivalents of \$302.1 million as compared to \$725.6 million as of January 1, 2012. In addition, we had \$125.0 million available under our Revolving Credit Facility with Credit Agricole as of April 1, 2012, which was subsequently drawn down on April 9, 2012. Our cash balances are held in numerous locations throughout the world, including substantial amounts held outside of the United States. The amounts held outside of the United States representing the earnings of our foreign subsidiaries which, if repatriated to the United States under current law, would be subject to United States federal and state tax less applicable foreign tax credits. Repatriation of earnings that have not been subjected to U.S. tax and which have been indefinitely reinvested outside the U.S. could result in additional United States federal income tax payments in future years.

On July 5, 2010, we formed our AUOSP joint venture. Under the terms of the joint venture agreement, our subsidiary SunPower Technology, Ltd. ("SPTL") and AU Optronics Singapore Pte. Ltd. ("AUO") each own 50% of AUOSP. Both SPTL and AUO are obligated to provide additional funding to AUOSP in the future. During the second half of fiscal 2010, we, through SPTL, and AUO each contributed total initial funding of \$27.9 million. In fiscal 2011, both SPTL and AUO each contributed an additional \$80.0 million in funding and will each contribute additional amounts to the joint venture in fiscal 2012 through 2014 amounting to \$241.0 million, or such lesser amount as the parties may mutually agree (see the Contractual Obligations table below). In addition, if AUOSP, SPTL, or AUO requests additional equity financing to AUOSP, then SPTL and AUO will each be required to make additional cash contributions of up to \$50.0 million in the aggregate. Further, we could in the future guarantee certain financial obligations of AUOSP. On November 5, 2010, we entered into an agreement with AUOSP under which we will resell to AUOSP polysilicon purchased from a third-party supplier and AUOSP will provide prepayments to us related to such polysilicon, which we will use to satisfy prepayments owed to the third-party supplier. We expect to receive prepayments from AUOSP in fiscal 2012 amounting to \$60 million.

On January 31, 2012, we completed our acquisition from Total of 100% of the equity of Tenesol, a global solar provider headquartered in La Tour de Salvagny, France, and a wholly-owned subsidiary of Total, for \$165.4 million in cash pursuant to a stock purchase agreement entered into on December 23, 2011. Concurrently with the closing of the acquisition, Total purchased 18.6 million shares of our common stock in a private placement at \$8.80 per share for total proceeds of \$163.7 million. Tenesol has module manufacturing operations in Toulouse, France and Capetown, South Africa and is in the process of developing a third site near Carling, France. Our manufacturing and assembly activities have required and will continue to require significant investment of capital and substantial engineering expenditures.

Under the terms of the amended 4.50% Warrants, we sold to affiliates of certain of the initial purchasers of the 4.50% cash convertible debentures warrants to acquire, subject to anti-dilution adjustments, up to 11.1 million shares of our common stock. The bond hedge and warrants described in Note 10 of Notes to the Condensed Consolidated Financial Statements represent a call spread overlay with respect to the 4.50% debentures. Assuming full performance by the counterparties (and 4.50% Warrants strike prices in excess of the conversion price of the 4.50% debentures), the transactions effectively reduce our potential payout over the principal amount on the 4.50% debentures upon conversion of the 4.50% debentures. In the third

quarter of fiscal 2011, we and the counterparties to the 4.50% Warrants agreed to reduce the exercise price of the 4.50% Warrants from \$27.03 to \$24.00.

We expect total capital expenditures related to purchases of property, plant and equipment in the range of \$110 million to \$130 million in fiscal 2012 in order to improve our current and next generation solar cell manufacturing technology and other projects. In addition, we expect to invest a significant amount of capital to develop solar power systems and plants for sale to customers. The development of solar power plants can require long periods of time and substantial initial investments. Our efforts in this area may consist of all stages of development, including land acquisition, permitting, financing, construction, operation and the eventual sale of the projects. We often choose to bear the costs of such efforts prior to the final sale to a customer, which involves significant upfront investments of resources (including, for example, large transmission deposits or other payments, which may be non-refundable), land acquisition, permitting, legal and other costs, and in some cases the actual costs of constructing a project, in advance of the signing of PPAs and Engineering Procurement Construction contracts and the receipt of any revenue, much of which is not recognized for several additional months or years following contract signing. Any delays in disposition of one or more projects could have a negative impact on our liquidity.

Certain of our customers also require performance bonds issued by a bonding agency or letters of credit issued by financial institutions. Obtaining letters of credit may require adequate collateral. All letters of credit issued under our August 2011 Deutsche Bank facility are guaranteed by Total S.A. pursuant to the Credit Support Agreement. Our letter of credit facility with Deutsche Bank Trust is fully collateralized by restricted cash, which reduces the amount of cash available for operations. As of April 1, 2012 letters of credit issued under the Deutsche Bank Trust facility amounted to \$4.4 million which were fully collateralized with restricted cash on the Consolidated Balance Sheets.

We believe that our current cash, cash equivalents and cash expected to be generated from operations and funds available under our revolving credit facility with Credit Agricole will be sufficient to meet our working capital and fund our committed capital expenditures over the next 12 months, including the development and construction of solar power systems and plants over the next 12 months. In addition, we have the Liquidity Support Facility (described below) with up to \$600 million available from Total S.A. to us under certain specified circumstances. However, there can be no assurance that our liquidity will be adequate over time. A significant portion of our revenue is generated from a limited number of customers and large projects and our inability to execute these projects, or to collect from these customers or for these projects, would have a significant negative impact on our business. Our capital expenditures and use of working capital may be greater than we expect if we decide to make additional investments in the development and construction of solar power plants and sales of power plants and associated cash proceeds are delayed, or if we decide to accelerate increases in our manufacturing capacity internally or through capital contributions to joint ventures. We require project financing in connection with the construction of solar power plants, which financing may not be available on terms acceptable to us. In addition, we could in the future make additional investments in our joint ventures or guarantee certain financial obligations of our joint ventures, which could reduce our cash flows, increase our indebtedness and expose us to the credit risk of our joint ventures. *See also "A limited number of customers and large projects are expected to continue to comprise a significant portion of our revenues and any decrease in revenue from these customers or projects could have a significant adverse effect on us," and "Due to the general economic environment, the continued market pressure driving down the average selling prices of our solar power products and other factors, we may be unable to generate sufficient cash flows or obtain access to external financing necessary to fund our operations and make adequate capital investments as planned"* in Part I, Item 1A "Risk Factors" in the fiscal 2011 Form 10-K.

We are party to an agreement with a customer to construct the California Valley Solar Ranch, a solar park. Part of the debt financing necessary for the customer to pay for the construction of this solar park is being provided by the Federal Financing Bank in reliance on a guarantee of repayment provided by the Department of Energy (the "DOE") under a loan guarantee program. On February 28, 2012, we entered into a Liquidity Support Agreement with Total S.A. and the DOE, and a series of related agreements with Total S.A. and Total, under which Total S.A. has agreed to provide us, or cause to be provided, additional liquidity under certain circumstances to a maximum amount of \$600 million (the "Liquidity Support Facility"). Total S.A. is required to provide liquidity support to us under the facility, and we are required to accept such liquidity support from Total S.A., if either our actual or projected unrestricted cash, cash equivalents, and unused borrowing capacity are reduced below \$100 million, or we fail to satisfy any financial covenant under our indebtedness. In either such event, subject to a \$600 million aggregate limit, Total S.A. is required to provide us with sufficient liquidity support to increase the amount of our unrestricted cash, cash equivalents and unused borrowing capacity to above \$100 million, and to restore compliance with our financial covenants. The Liquidity Support Facility is available until the completion of the solar park, expected to be operational in 2013 and completed before the end of 2014, and, under certain conditions, up to December 31, 2016, at which time all outstanding guarantees will expire and all outstanding debt under the facility will become due. In return for Total S.A.'s agreement to provide the Liquidity Support Facility, on February 28, 2012, we issued to Total a seven-year warrant to purchase 9,531,677 shares of our common stock at an exercise price of \$7.8685 per share. During the term of the facility, we must pay Total S.A. a quarterly fee equal to 0.25% of the unused portion of the facility. Liquidity support may be

provided by Total S.A. or through its affiliates in the form of revolving non-convertible debt, convertible debt, equity, guarantees of our indebtedness or other forms of liquidity support agreed to by us, depending on the amount outstanding under the facility immediately prior to provision of the applicable support among other factors. We are required to compensate Total S.A. for any liquidity support actually provided, and the form and amount of such compensation depends on the form and amount of support provided, with the amount of compensation generally increasing with the amount of support provided over time. Such compensation is to be provided in a variety of forms including guarantee fees, warrants to purchase common stock, interest on amounts borrowed, and discounts on equity issued. The use of the Liquidity Support Facility is not limited to direct obligations related to the solar park, and is available for general corporate purposes, but we have agreed to conduct our operations, and use any proceeds from such facility in ways that minimize the likelihood of Total S.A. being required to provide further support. For a more detailed description of the Liquidity Support Facility and related agreements, see Item 9B of our fiscal 2011 Form 10-K.

If our capital resources are insufficient to satisfy our liquidity requirements, we may seek to sell additional equity securities or debt securities or obtain other debt financing, including under the Liquidity Support Facility. The current economic environment, however, could also limit our ability to raise capital by issuing new equity or debt securities on acceptable terms, and lenders may be unwilling to lend funds on acceptable terms that would be required to supplement cash flows to support operations. The sale of additional equity securities or convertible debt securities, including under the Liquidity Support Agreement, would result in additional dilution to our stockholders (and potential for further dilution upon the exercise of warrants or the conversion of convertible debt issued under the Liquidity Support Facility) and may not be available on favorable terms or at all, particularly in light of the current conditions in the financial and credit markets. Additional debt would result in increased expenses and would likely impose new restrictive covenants which may be similar or different than those restrictions contained in the covenants under the letter of credit facility with Deutsche Bank, the letter of credit facility with Deutsche Bank Trust, the mortgage loan agreement with IFC, the loan agreement with CEDA, the revolving credit facility with Credit Agricole, the 4.50% debentures or the 4.75% debentures. Financing arrangements, including project financing for our solar power plants and letters of credit facilities, may not be available to us, or may not be available in amounts or on terms acceptable to us.

Contractual Obligations

The following summarizes our contractual obligations as of April 1, 2012:

(In thousands)	Total	Payments Due by Period			
		2012 (remaining 9 months)	2013-2014	2015-2016	Beyond 2016
Convertible debt, including interest (1)	\$ 540,446	\$ 16,632	\$ 268,828	\$ 254,986	\$ —
IFC mortgage loan, including interest (2)	83,373	1,920	31,606	32,094	17,753
CEDA loan, including interest (3)	78,451	1,913	5,100	5,100	66,338
Credit Agricole revolving credit facility, including interest (4)	154,238	2,138	152,100	—	—
Future financing commitments (5)	245,940	47,770	198,170	—	—
Operating lease commitments (6)	120,614	13,367	27,353	23,057	56,837
Capital lease commitments (7)	10,374	1,775	3,615	2,228	2,756
Utility obligations (8)	750	—	—	—	750
Non-cancellable purchase orders (9)	289,261	289,261	—	—	—
Purchase commitments under agreements (10)	2,494,930	428,276	641,734	713,841	711,079
Total	\$ 4,018,377	\$ 803,052	\$ 1,328,506	\$ 1,031,306	\$ 855,513

- (1) Convertible debt, including interest, relates to the aggregate of \$480.1 million in outstanding principal amount of our senior convertible debentures on April 1, 2012. For the purpose of the table above, we assume that all holders of the 4.50% debentures and 4.75% debentures will hold the debentures through the date of maturity in fiscal 2015 and 2014, respectively, and all holders of the 0.75% debentures will require us to repurchase the debentures on August 1, 2015, and upon conversion, the values of the senior convertible debentures will be equal to the aggregate principal amount with no premiums.

Table of Contents

- (2) IFC mortgage loan, including interest, relates to the \$75.0 million borrowed as of April 1, 2012. Under the loan agreement, SPML is required to repay the amount borrowed, starting 2 years after the date of borrowing, in 10 equal semiannual installments over the following 5 years. SPML is required to pay interest of LIBOR plus 3% per annum on outstanding borrowings.
- (3) CEDA loan, including interest, relates to the proceeds of the \$30.0 million aggregate principal amount of the Bonds. The Bonds mature on April 1, 2031. On June 1, 2011 the Bonds were converted to bear interest at a fixed rate of 8.50% through maturity.
- (4) Credit Agricole revolving credit facility, with interest, relates to the \$150.0 million borrowed as of April 1, 2012 and maturing on September 27, 2013. We are required to pay interest on outstanding borrowings of (a) with respect to any LIBOR loan, 1.50% plus the LIBOR divided by a percentage equal to one minus the stated maximum rate of all reserves required to be maintained against "Eurocurrency liabilities" as specified in Regulation D; and (b) with respect to any alternate base loan, 0.50% plus the greater of (1) the prime rate, (2) the Federal Funds rate plus 0.5%, and (3) the one month LIBOR plus 1%.
- (5) SPTL and AUO will contribute additional amounts to AUOSP in fiscal 2012 through 2014 amounting to \$241.0 million by each shareholder, or such lesser amount as the parties may mutually agree. Further, in connection with a purchase agreement with a non-public company we will be required to provide additional financing to such party of up to \$4.9 million, subject to certain conditions.
- (6) Operating lease commitments primarily relate to certain solar power systems leased from unaffiliated third parties over minimum lease terms of up to 20 years and various lease agreements for our headquarters in San Jose, California, sales and support offices throughout the United States and Europe and a solar module facility in Mexicali, Mexico.
- (7) Capital lease commitments primarily relate to certain manufacturing and equipment under capital leases in Europe for terms of up to 12 years.
- (8) Utility obligations relate to our 11-year lease agreement with an unaffiliated third party for our administrative, research and development offices in Richmond, California.
- (9) Non-cancellable purchase orders relate to purchases of raw materials for inventory and manufacturing equipment from a variety of vendors.
- (10) Purchase commitments under agreements relate to arrangements entered into with several suppliers, including joint ventures, for polysilicon, ingots, wafers, solar cells and solar panels as well as agreements to purchase solar renewable energy certificates from solar installation owners in New Jersey and Pennsylvania. These agreements specify future quantities and pricing of products to be supplied by the vendors for periods up to 10 years and there are certain consequences, such as forfeiture of advanced deposits and liquidated damages relating to previous purchases, in the event that we terminate the arrangements. Where pricing is specified for future periods, in some contracts, we may reduce our purchase commitment under the contract if we obtain a bona fide third party offer at a price that is a certain percentage lower than the applicable purchase price in the existing contract. If market prices decrease, we intend to use such provisions to either move our purchasing to another supplier or to force the initial supplier to reduce its price to remain competitive with market pricing.

Liabilities Associated with Uncertain Tax Positions

As of April 1, 2012 and January 1, 2012, total liabilities associated with uncertain tax positions were \$29.8 million and \$29.3 million, respectively, and are included in "Other long-term liabilities" in our Condensed Consolidated Balance Sheets as they are not expected to be paid within the next twelve months. Due to the complexity and uncertainty associated with our tax positions, we cannot make a reasonably reliable estimate of the period in which cash settlement will be made for our liabilities associated with uncertain tax positions in other long-term liabilities. Therefore, they have been excluded from the table above.

Off-Balance-Sheet Arrangements

As of April 1, 2012, we did not have any significant off-balance-sheet arrangements, as defined in Item 303(a)(4)(ii) of SEC Regulation S-K.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Foreign Currency Exchange Risk

Our exposure to movements in foreign currency exchange rates is primarily related to sales to European customers that are denominated in Euros. Revenue generated from European customers represented 32% and 44% of our total revenue in the three months ended April 1, 2012 and April 3, 2011, respectively. A 10% change in the Euro exchange rate would have impacted our revenue by approximately \$15.6 million and \$20.1 million in the three months ended April 1, 2012 and April 3, 2011, respectively.

In the past, we have experienced an adverse impact on our revenue, gross margin and profitability as a result of foreign currency fluctuations. When foreign currencies appreciate against the U.S. dollar, inventories and expenses denominated in foreign currencies become more expensive. Strengthening of the Malaysian Ringgit against the U.S. dollar would increase AUOSP's liability under the facility agreement with the Malaysian government which in turn would negatively impact our equity in earnings of the unconsolidated investee. An increase in the value of the U.S. dollar relative to foreign currencies could make our solar power products more expensive for international customers, thus potentially leading to a reduction in demand, our sales and profitability. Furthermore, many of our competitors are foreign companies that could benefit from such a currency fluctuation, making it more difficult for us to compete with those companies.

We currently conduct hedging activities which involve the use of option and forward contracts to address our exposure to changes in the foreign exchange rate between the U.S. dollar and other currencies. As of April 1, 2012, we had outstanding hedge option contracts and forward contracts with aggregate notional values of \$63.0 million and \$70.0 million, respectively. As of January 1, 2012, we held option and forward contracts totaling \$130.4 million and \$200.8 million, respectively, in notional value. Because we hedge some of our expected future foreign exchange exposure, if associated revenues do not materialize we could experience losses. During the three months ended April 3, 2011, in connection with the decline in forecasted revenue surrounding the overall change in the solar sector, we concluded that certain previously anticipated transactions were probable not to occur and thus we reclassified the amount held in "Accumulated other comprehensive income" in our Condensed Consolidated Balance Sheets for these transactions, which totaled a loss of \$3.9 million, to "Other, net" in our Condensed Consolidated Statement of Operations. If we conclude that we have a pattern of determining that hedged forecasted transactions probably will not occur, we may no longer be able to continue to use hedge accounting in the future to reduce our exposure to movements in foreign exchange rates. Such a conclusion and change in our foreign currency hedge program could adversely impact our revenue, margins and results of operations. We cannot predict the impact of future exchange rate fluctuations on our business and operating results.

Credit Risk

We have certain financial and derivative instruments that subject us to credit risk. These consist primarily of cash and cash equivalents, restricted cash and cash equivalents, investments, accounts receivable, note receivable, advances to suppliers, foreign currency option contracts, foreign currency forward contracts, bond hedge and warrant transactions and a share lending arrangement for our common stock. We are exposed to credit losses in the event of nonperformance by the counterparties to our financial and derivative instruments.

We enter into agreements with vendors that specify future quantities and pricing of polysilicon to be supplied for periods up to 10 years. Under certain agreements, we are required to make prepayments to the vendors over the terms of the arrangements. As of April 1, 2012 and January 1, 2012, advances to suppliers totaled \$343.2 million and \$327.5 million, respectively. Two suppliers accounted for 72% and 23% of total advances to suppliers as of April 1, 2012, and 74% and 20% of total advances to suppliers as of January 1, 2012. We may be unable to recover such prepayments if the credit conditions of these suppliers materially deteriorate.

We enter into foreign currency derivative contracts and convertible debenture hedge transactions with high-quality financial institutions and limit the amount of credit exposure to any single counterparty. The foreign currency derivative contracts are limited to a time period of less than one year. We regularly evaluate the credit standing of our counterparty financial institutions.

Interest Rate Risk

We are exposed to interest rate risk because many of our customers depend on debt financing to purchase our solar power systems. An increase in interest rates could make it difficult for our customers to obtain the financing necessary to purchase our solar power systems on favorable terms, or at all, and thus lower demand for our solar power products, reduce

revenue and adversely impact our operating results. An increase in interest rates could lower a customer's return on investment in a system or make alternative investments more attractive relative to solar power systems, which, in each case, could cause our customers to seek alternative investments that promise higher returns or demand higher returns from our solar power systems, reduce gross margin and adversely impact our operating results. This risk is significant to our business because our sales model is highly sensitive to interest rate fluctuations and the availability of credit, and would be adversely affected by increases in interest rates or liquidity constraints.

Our interest expense would increase to the extent interest rates rise in connection with our variable interest rate borrowings. As of April 1, 2012, the outstanding principal balance of our variable interest borrowings was \$225.0 million. We do not believe that an immediate 10% increase in interest rates would have a material effect on our financial statements. In addition, lower interest rates have an adverse impact on our interest income. Our investment portfolio primarily consists of \$166.0 million in money market funds as of April 1, 2012, and exposes us to interest rate risk. Due to the relatively short-term nature of our investment portfolio, we do not believe that an immediate 10% increase in interest rates would have a material effect on the fair market value of our money market funds. Since we believe we have the ability to liquidate substantially all of this portfolio, we do not expect our operating results or cash flows to be materially affected to any significant degree by a sudden change in market interest rates on our investment portfolio.

Equity Price Risk Involving Minority Investments in Joint Ventures and Other Non-Public Companies

Our investments held in joint ventures and other non-public companies expose us to equity price risk. As of April 1, 2012 and January 1, 2012, investments of \$112.5 million and \$129.9 million, respectively, are accounted for using the equity method, and \$4.9 million as of both periods, are accounted for using the cost method. These strategic investments in third parties are subject to risk of changes in market value, which if determined to be other-than-temporary, could result in realized impairment losses. We generally do not attempt to reduce or eliminate our market exposure in equity and cost method investments. We monitor these investments for impairment and record reductions in the carrying values when necessary. Circumstances that indicate an other-than-temporary decline include the valuation ascribed to the issuing company in subsequent financing rounds, decreases in quoted market prices and declines in operations of the issuer. There can be no assurance that our equity and cost method investments will not face risks of loss in the future.

Interest Rate Risk and Market Price Risk Involving Convertible Debt

The fair market value of our 4.75%, 4.50%, and 0.75% convertible debentures is subject to interest rate risk, market price risk and other factors due to the convertible feature of the debentures. The fair market value of the debentures will generally increase as interest rates fall and decrease as interest rates rise. In addition, the fair market value of the debentures will generally increase as the market price of our common stock increases and decrease as the market price of our common stock falls. The interest and market value changes affect the fair market value of the debentures, but do not impact our financial position, cash flows or results of operations due to the fixed nature of the debt obligations, except to the extent increases in the value of our common stock may provide the holders of our 4.50% debentures, and/or 0.75% debentures the right to convert such debentures into cash in certain instances. The aggregate estimated fair value of the 4.75% debentures, 4.50% debentures, and 0.75% debentures was \$443.0 million as of April 1, 2012. The aggregate estimated fair value of the 4.75% debentures, 4.50% debentures, 1.25% debentures and 0.75% debentures was \$665.0 million as of January 1, 2012. Estimated fair values are based on quoted market prices as reported by an independent pricing source. A 10% increase in quoted market prices would increase the estimated fair value of our then-outstanding debentures to \$487.3 million and \$665.0 million as of April 1, 2012 and January 1, 2012, respectively, and a 10% decrease in the quoted market prices would decrease the estimated fair value of our then-outstanding debentures to \$398.7 million and \$544.1 million as of April 1, 2012 and January 1, 2012, respectively.

ITEM 4: CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain "disclosure controls and procedures," as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act, that are designed to provide reasonable assurance that information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Additionally, in designing disclosure controls and procedures, our management is required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure control and procedure also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of April 1, 2012 at a reasonable assurance level.

Changes in Internal Control over Financial Reporting

We regularly review our system of internal control over financial reporting and make changes to our processes and systems to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating activities, and migrating processes.

There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

The disclosure under "Legal Matters" in "Note 8. Commitments and Contingencies" in "Part I. Financial Information, Item 1. Financial Statements: Notes to Condensed Consolidated Financial Statements" of this Quarterly Report on Form 10-Q is incorporated herein by reference.

ITEM 1A: RISK FACTORS

In addition to other information set forth in this report, readers should carefully consider the risk factors discussed in "Part I. Item 1A: Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended January 1, 2012, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Issuances of Equity Securities

On January 31, 2012, the Company closed the private placement of 18.6 million shares of its common stock, par value \$0.001 per share, together with the preferred stock purchase rights appurtenant thereto issued under the Amended and Restated Rights Agreement, dated November 16, 2011, by and between the Company and Computershare Trust Company, N.A., as Rights Agent (the "Common Shares"). The Common Shares were issued and sold to Total Gas & Power USA, SAS, a *société par actions simplifiée* organized under the laws of the Republic of France ("Total"), for an aggregate purchase price of \$163.7 million in cash, and are exempt from the registration requirements of the Securities Act of 1933, as amended (the "Securities Act"), under the exemption provided by Rule 506 of Regulation D.

In connection with the Liquidity Support Agreement described in Part I, Item 2 in this Quarterly Report, on February 28, 2012, the Company issued to Total a warrant to purchase 9,531,677 shares of the Company's common stock with an exercise price of \$7.8685, subject to adjustment for customary anti-dilution and other events. The Company did not receive any cash consideration for the warrant. The Company believes that the issuance and sale of the warrant was exempt from the registration requirements of the Securities Act pursuant to Section 4(2) thereunder. The warrant is exercisable at any time for seven years after its issuance, provided that, so long as at least \$25 million of the Company's convertible debt remains outstanding, such exercise will not cause "any person," including Total S.A., to, directly or indirectly, including through one or more wholly-owned subsidiaries, become the "beneficial owner" (as such terms are defined in Rule 13d-3 and Rule 13d-5 under the Securities and Exchange Act of 1934, as amended), of more than 74.99% of the voting power of the Company's common stock at such time, because "any person" becoming such "beneficial owner" would trigger the repurchase or conversion of the Company's existing convertible debt.

Issuer Purchases of Equity Securities

The following table sets forth all purchases made by or on behalf of us or any "affiliated purchaser," as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, of shares of our common stock during each of the indicated periods.

Period	Total Number of Shares Purchased (in thousands) (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Publicly Announced Plans or Programs
January 2, 2012 through January 29, 2012	5	\$ 6.43	—	—
January 30, 2012 through February 26, 2012	22	\$ 7.67	—	—
February 27, 2012 through April 1, 2012	494	\$ 7.45	—	—
	<u>521</u>	<u>\$ 7.45</u>	<u>—</u>	<u>—</u>

- (1) The shares purchased represent shares surrendered to satisfy tax withholding obligation in connection with the vesting of restricted stock issued to employees.

ITEM 6: EXHIBITS

EXHIBIT INDEX

Exhibit Number	Description
3.1	Amended and Restated By-laws of SunPower Corporation, as amended and restated on March 7, 2012 (incorporated by reference to Exhibit 3.1 to the Registrant's Current Report on Form 8-K filed with the Securities and Exchange Commission on March 7, 2012).
10.1	Liquidity Support Agreement, dated February 28, 2012, by and among SunPower Corporation, Total S.A. and the U.S. Department of Energy, acting by and through the Secretary of Energy (incorporated by reference to Exhibit 10.89 to the Registrant's Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 29, 2012).
10.2	Compensation and Funding Agreement, dated February 28, 2012, by and between SunPower Corporation and Total S.A. (incorporated by reference to Exhibit 10.90 to the Registrant's Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 29, 2012).
10.3	Amendment No. 3 to Affiliation Agreement, dated February 28, 2012, by and between Total Gas & Power USA, SAS and SunPower Corporation (incorporated by reference to Exhibit 10.91 to the Registrant's Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 29, 2012).
10.4	Warrant to Purchase Common Stock, dated February 28, 2012, issued to Total Gas & Power USA, SAS (incorporated by reference to Exhibit 10.92 to the Registrant's Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 29, 2012).
10.5	Revolving Credit and Convertible Loan Agreement, dated February 28, 2012, by and between Total Gas & Power USA, SAS and SunPower Corporation (incorporated by reference to Exhibit 10.93 to the Registrant's Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 29, 2012).

SUNPOWER CORPORATION
EXECUTIVE QUARTERLY
KEY INITIATIVE BONUS PLAN
(Amended and Restated March 19, 2012)

Article 1 - Exec KI Plan Objective

1.1 The objective of this Executive Quarterly Key Initiative Bonus Plan ("Exec KI Plan") is to provide incentives to key employees of SunPower Corporation and its subsidiaries (collectively, the "Company") based on the Company's profit before tax, quarterly company milestones and an individual's performance against set individual key initiatives (KIs). The Exec KI Plan shall be administered by the Compensation Committee appointed by the Board of Directors of SunPower Corporation.

Article 2 - Effective Date

2.1 This quarterly program will be effective as of January 1, 2012. "Plan Periods" under the Exec KI Plan will correspond to the fiscal quarters of the Company.

Article 3 - Eligibility for Exec KI Plan Participation

3.1 All executive officers of the Company, as well as any other key employees approved by the Compensation Committee of the Board of Directors, shall participate in the Exec KI Plan. Participation will generally be limited to the CEO and executive direct reports.

Article 4 - Target Bonus Percentages and Calculations

4.1 Exec KI Target Bonus Percentages. Each Exec KI Plan participant will be allocated a KI target bonus expressed as a percentage of his or her base salary. KI target bonus percentages are set by the Compensation Committee. The Compensation Committee may, in its discretion, set maximum caps on the payout amount for KI bonuses. The Compensation Committee may delegate establishing KI target bonus percentages to officers of the Company; provided that executive officer KI target bonus percentages must be approved by the Compensation Committee.

4.2 Exec KI Plan Components.

- i. Quarterly KI Score. At the start of each quarter the participant will formulate with his or her supervisor a list of key initiatives for such quarter. Each initiative will be allocated a certain number of points, and the quarterly scorecard shall total 100 points. Following each quarter the participant's supervisor will score the participant's achievement of key initiatives (expressed as a percentage).

- (ii) **Company Milestone Score.** With respect to each quarter the Board of Directors will establish quarterly company milestones for such quarter. Each company milestone will be allocated a certain number of points. Following each quarter, the executive officers of the Company will score the achievement of company milestones (expressed as a percentage).
- (iii) **PBT Score.** At the start of the year the executive officers will establish an internal profit before tax financial target for the Company (“Target PBT”), including minimum and maximum PBT levels for the year. Following the year, the actual profit before tax will be determined (“Actual PBT”).

4.3 Quarterly bonuses under this Exec KI Plan are based on a combination of (a) the participant's number of points achieved on his or her key initiative scorecard for the quarter (expressed as a percentage), (b) the percentage of company milestones achieved for the quarter, and (c) the Actual PBT for the year. *Achievement on key initiatives and company milestone are calculated each quarter, but bonus is not paid or earned until Actual PBT is calculated for the year.* The annual Actual PBT is then applied to calculate any bonuses for the previous four quarters to determine actual payment. In particular, the bonus payout is calculated as follows:

- (i) For each quarter:
 - a. If the company milestone score is equal to or less than 60%, no KI bonus will be calculated for the quarter.
 - b. If the company milestone score is greater than 60% and equal to or less than 80%, KI bonus for the quarter will be multiplied by a factor of 50%.
 - c. If the company milestone score is greater than 80%, KI bonus for the quarter will be multiplied by a factor of 100%.
- (ii) For the year:
 - a. If the Actual PBT is less than minimum performance level, no KI bonus payout will be made for that year, regardless of the performance in individual quarters.
 - b. If the Actual PBT is equal to or greater than the minimum but less than the Target PBT, KI bonus will be equal to the sum of the performance of individual quarters.
 - c. If the Actual PBT is between the Target PBT and the maximum performance level, KI bonus will be equal to the sum of the performance of individual quarters, multiplied by an adjustment factor between 100% and 125%, based on a straight-line proration between target and the maximum achievement.
 - d. If the Actual PBT is equal to or greater than the maximum performance level, KI bonus will be equal to 125% of the sum of the performance of individual quarters.

Article 5 - Effect of Base Salary on Target Bonus Adjustments.

5.1 Payout calculations under the Exec KI Plan will be based on the plan participant's base salary at the end of the quarter being measured.

5.2 In the event a participant's KI target bonus percentage is changed during the quarter, the participant's KI payout for the quarter shall be based on the KI target bonus in effect at the end of that quarter.

Article 6 - KI Achievement

- 6.1 KI attainment for the completed quarter and proposed KI for the next quarter are reviewed at the end of each quarter no later than the third Friday of the first month of the quarter.
- 6.2 In setting KIs, a 0% threshold may be defined for each KI. This threshold, which could be timing and/or deliverable-based, is a point at which a KI score starts to be earned. If a participant does not reach/complete the minimum threshold, such KI will be scored 0% (zero). Progress beyond the threshold earns the participant a pro-rated score up to 110%. The score for a particular KI item cannot exceed 110%. Scoring greater than 100% for a KI item is usually limited to numeric or quantitative goals.
- 6.3 The Chief Executive Officer's quarterly KI score is the actual company milestone score for such quarter.

Article 7 - Eligibility for Payment

- 7.1 **Employment:** To be eligible for any portion of the bonus payment, the participant must be employed by the Company at the scheduled payment date. A participant who terminates employment prior to the payment date will be ineligible for any and all bonuses not yet paid, except as otherwise provided in this article or any separate agreement approved by the Compensation Committee.
- 7.2 **New Hires:** New Hires shall be eligible to participate in the bonus program starting the first complete month of work, i.e. if they start the first business day of the month, they will be eligible to participate that month; otherwise, they will begin participation the following month.
- 7.3 **Disability:** If a participant is unable to perform the essential functions of his or her job with or without a reasonable accommodation and is eligible to receive disability benefits under the standards used by the Company's disability benefit plan, the participant will receive a bonus calculated as follows: the quarter in which the disability begins will be considered a completed quarter and the KI bonus for that quarter will be paid as though KI attainment was 100%. If/when the participant returns from disability leave, participation will be handled as outlined in section 7.2 above.
- 7.4 **Retirement:** If a participant retires, i.e. permanent termination of employment with the Company in accordance with the Company's retirement policies, the participant will receive a bonus calculated as follows: the quarter in which the retirement begins will be considered a completed quarter and the KI bonus for that quarter will be paid as though KI attainment was 100%. Thereafter, quarterly participation ceases.

- 7.5 Death: If a participant dies, awards will be paid to the beneficiary designated by the participant or, if no such designation has been made, to the persons entitled thereto as determined by a court of competent jurisdiction. The bonus will be calculated as follows: the quarter in which death occurred will be considered a completed quarter and the KI bonus for that quarter will be paid as though KI attainment was 100%. Thereafter, quarterly participation ceases.
- 7.6 Lay-off: If a participant is terminated by lay-off during a Plan Period, the quarter in which the lay-off occurred will be considered a completed quarter and the KI bonus for that quarter will be paid as though KI attainment was 100%. Thereafter, quarterly participation ceases.
- 7.7 No bonus will be paid to employees who are terminated for cause.
- 7.8 All qualified bonus payments including future scheduled payments pursuant to Sections 7.3, 7.4, 7.5, and 7.6 will be paid in a lump-sum.
- 7.9 The Chief Executive Officer reserves the right to reduce the bonus award of a participant on a pro-rata basis to reflect a participant's leave of absence during the applicable Plan Period.

Article 8 - Miscellaneous

- 8.1 Unless as defined in article 8.4, no right or interest in this Exec KI Plan is transferable or assignable except by will or laws of descent and distribution.
- 8.2 Participation in this Exec KI Plan does not guarantee any right to continued employment with the Company.
- 8.3 Participation in the Exec KI Plan in a particular Plan Period is not a guarantee to participate in subsequent Plan Periods.
- 8.4 Management reserves the right to discontinue participation of any participant in this Exec KI Plan, at any time, and for whatever reasons.
- 8.5 This Exec KI Plan is unfunded and the Company does not intend to set up a sinking fund. Consequently, payments arising out of bonus earned shall be paid out of the Company's general assets. Accounts recognized by the Company for book purposes are not an indication of funds set aside for payment. Exec KI Plan participants are considered as general creditors of the Company and the obligation of the Company is purely contractual and is not secured by any particular Company asset.
- 8.6 The provision of this Exec KI Plan shall not limit the ability of the Compensation Committee (or its designees) to modify said Exec KI Plan, or adopt such other plans on matters of compensation, bonus or incentive, which in its own judgment it deems proper, at any time.

AMENDMENT NO. 6 TO INGOT SUPPLY AGREEMENT

THIS AMENDMENT NO. 6 INGOT SUPPLY AGREEMENT (This "**Amendment No. 6**") is made this **13 day of March 2012** ("**Effective Date**") by and between Woongjin Energy Co., Ltd., a company organized and existing under the laws of the Republic of Korea with its office located at 1316 GwanPyeong-Dong, YuSung-Gu, DaeJeon, Korea ("**Supplier**"), and SunPower Corporation, a company organized under the laws of the State of Delaware, United States of America, with its principal office located at 77 Rio Robles, San Jose, California 95134, United States of America ("**SunPower**"), and SunPower Philippines Manufacturing Limited, a Cayman Islands business and wholly owned subsidiary of SunPower, with a branch office at 100 East Main Avenue, Phase 4, Special Economic Zone, Laguna Techno Park, Binan, Laguna, Philippines 4024 (together with SunPower, "**Purchaser**"). The Supplier and Purchaser are sometimes referred to herein as a "**Party**" and collectively, as the "**Parties**". Capitalized terms used in this Amendment No. 6 and not defined herein shall have the meaning given to such terms in the Agreement (as hereinafter defined).

RECITALS

(a) Supplier and Purchaser are parties to that certain Ingot Supply Agreement, dated as of December 22, 2006, as amended on August 4, 2008, August 1, 2009, February 1, 2011, July 5, 2011 and October 28, 2011 (the "**Agreement**"), pursuant to which Supplier agreed to manufacture and sell to Purchaser, and Purchaser agreed to purchase from Supplier, certain SP Polysilicon Based Products and Non-SP Polysilicon Based Products.

(b) The Parties desire to amend the Agreement as follows.

NOW THEREFORE, in consideration of the promises set forth above, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto, intending to be legally bound, hereby agree as follows:

Section 3.1 of the Original Agreement is hereby amended and restated in its entirety as follows:

3.1 The purchase price payable by Purchaser for the SP Polysilicon Based Products shall be determined in accordance with the formula set out in Schedule 3.1(a), which shall be DAP (as defined in Incoterms 2010). The purchase price payable by Purchaser for the Non-SP Polysilicon Based Products shall be determined in accordance with the formula set out in Schedule 3.1(b), which shall be DAP (as defined in Incoterms 2010). Seller retains title to the products until Buyer assumes risk of loss, damage or destruction pursuant to the applicable INCO terms (2010) upon delivery per DAP, at which time title shall transfer to Buyer. Deliveries shall be DAP (Inco Terms 2010) to the location stated in the PO.

1. This Amendment No. 6 is effective from April 1st, 2012 until Dec. 31, 2016, or if earlier, until further amended by the parties.
2. All other provisions of the Agreement, except as specifically amended or waived hereby, shall remain in full force and effect and are incorporated herein.
3. If any part of this Amendment No. 6 or the Agreement as amended herein is found to be void or unenforceable for any reason, the remainder of this Amendment No. 6 and the Agreement as amended hereunder, shall be enforced, to the fullest extent possible, as if such void or unenforceable provision was not part of this Amendment No. 6.
4. This Amendment No. 6 may be executed in one or more counterparts, each of which shall be deemed to be an original and shall constitute one and the same instrument. This Amendment No. 6 may be executed by facsimile, and each such facsimile signature shall be deemed to be an original.

IN WITNESS THEREOF, the Parties hereto, intending to be legally bound, have executed this Amendment No. 6 as of the date first written above.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND
CHIEF FINANCIAL OFFICER PURSUANT TO
18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of SunPower Corporation (the "Company") on Form 10-Q for the period ended April 1, 2012 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), each of Thomas H. Werner and Charles D. Boynton certifies, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of his knowledge and belief:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: May 8, 2012
